

Kommunkredit Austria AG

EUR 2,000,000,000 Debt Issuance Programme (the "Programme")

Under the Programme, Kommunkredit Austria AG (the "**Issuer**"), subject to compliance with all relevant laws, regulations and directives, may issue debt securities as further specified in the relevant final terms (the "**Final Terms**") in series (each a "**Series**") and tranches (each a "**Tranche**") in the English language under Austrian law. The Programme foresees three different options of Terms and Conditions (as defined herein) under which notes with the following ranking may be issued: (i) covered bank bonds (*fundierte Bankschuldverschreibungen*) to be issued until the new Austrian Covered Bond Act, Federal Law Gazette I No. 199/2021 (*Pfandbriefgesetz – "PfandBG"*) enters into force on 8 July 2022 (the "**Covered Bank Bonds**") or covered bonds (*gedeckte Schuldverschreibungen*) to be issued from the entry into force of the PfandBG on 8 July 2022 (the "**Covered Bonds**") (Option I); (ii) ordinary senior eligible notes (Option II) (the "**Ordinary Senior Eligible Notes**"); and (iii) non-preferred senior eligible notes (Option III) (the "**Non-Preferred Senior Eligible Notes**") (all together, the "**Notes**"). The Notes may have the following types of interest structure: (i) fixed interest rate(s); and (ii) variable interest rate. Subject to compliance with all relevant laws, regulations and directives, the Notes will have a minimum maturity of at least twelve months and no maximum maturity. The Notes will have a minimum denomination of EUR 100,000 (or the equivalent in other currencies). The aggregate principal amount of Notes outstanding (i.e. Notes not redeemed) under the Programme will not at any one time exceed EUR 2,000,000,000 (or the equivalent in other currencies).

This base prospectus dated **19 May 2022**, as supplemented from time to time (the "**Prospectus**") constitutes a base prospectus for the purposes of Article 8 of the Regulation (EU) 2017/1129, as amended (the "**Prospectus Regulation**") and has been drawn up in accordance with Annexes 7, 15 and 28 of the Commission Delegated Regulation (EU) 2019/980, as amended. This Prospectus has been approved by the Austrian Financial Market Authority (*Finanzmarktaufsichtsbehörde* - the "**FMA**") in its capacity as competent authority pursuant to Article 20 of the Prospectus Regulation in conjunction with the Austrian Capital Market Act 2019 (*Kapitalmarktgesetz 2019*). **The FMA only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer and the quality of the Notes that are the subject of this Prospectus. Investors should make their own assessment as to the suitability of investing in the Notes.**

Application may be made for the Programme and/or any Series of Notes to be admitted to the Official Market (*Amtlicher Handel*) of the Vienna Stock Exchange (*Wiener Börse*) (the "**Market**"). References in this Prospectus to Series of Notes being listed (and all related references) shall mean that such Series of Notes have been admitted to trading on the Market, which is a regulated market for the purposes of the Directive 2014/65/EU, as amended (*Markets in Financial Instruments Directive II – "MiFID II"*). Furthermore, application may also be made for the Programme and/or any Series of Notes to be included in the Vienna MTF of the Vienna Stock Exchange ("**Vienna MTF**") which is a multilateral trading facility (MTF). Unlisted Series of Notes may also be issued pursuant to this Programme. The relevant Final Terms in respect of any Series of Notes will specify whether or not such Series of Notes will be admitted to trading on the Market or included in the Vienna MTF.

The Issuer has not requested the FMA to provide any competent authority in other host member states within the European Economic Area ("**EEA**") with a certificate of approval attesting that this Prospectus has been drawn up in accordance with the Prospectus Regulation. However, the Issuer may from time to time request the FMA to provide to competent authorities of member states of the EEA notifications concerning the approval of this Prospectus.

Tranches of Notes in bearer form will be represented on issue by a modifiable global note (*veränderbare Sammelurkunde*) pursuant to Austrian law (the "**Global Note**"). Global Notes will be deposited with or on behalf of OeKB CSD GmbH ("**OeKB CSD**"). Global Notes may be intended to be eligible collateral for Eurosystem monetary policy.

Tranches of Notes may be rated or unrated. Where a Tranche of Notes is rated, such credit rating will be specified in the relevant Final Terms. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning credit rating agency. Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) No 1060/2009, as amended (the "**CRA Regulation**") will be disclosed in the relevant Final Terms. The European Securities and Markets Authority (the "**ESMA**") is obliged to maintain on its website ("www.esma.europa.eu") a list of credit rating agencies registered and certified in accordance with the CRA Regulation. This list must be updated within 5 working days of ESMA's adoption of any decision to withdraw the registration of a credit rating agency under the CRA Regulation. The ESMA website is not incorporated by reference into, nor does it form part of, this Prospectus.

Prospective investors should have regard to the factors described under the section headed "*Risk Factors*" in this Prospectus. This Prospectus does not describe all of the risks of an investment in the Notes, but the Issuer believes that all material risks relating to an investment in the Notes have been described.

This Prospectus is valid for 12 months after its approval. The obligation by the Issuer to supplement this Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when this Prospectus is no longer valid.

RESPONSIBILITY STATEMENT

The Issuer, with its registered office at Tuerkenstrasse 9, A-1090 Vienna, Austria, is responsible for the information given in this Prospectus.

The Issuer hereby declares that, to the best of the knowledge of the Issuer, the information contained in this Prospectus is in accordance with the facts and makes no omission likely to affect its import.

NOTICE

This Prospectus should be read and understood in conjunction with any supplement hereto and with any document incorporated herein by reference. Full information on the Issuer and any Tranche of Notes is only available on the basis of the combination of this Prospectus and the relevant Final Terms.

The Issuer has confirmed to the arranger and dealer set forth on the cover page of this Prospectus (the "**Arranger**") and confirms to any further dealer appointed from time to time under the Programme (i) that this Prospectus contains all information which is material in the context of the Programme and the issue and offering of Notes thereunder; (ii) that the information contained herein is accurate in all material respects and is not misleading; (iii) that any opinions and intentions expressed herein are honestly held; (iv) that there are no other facts, the omission of which would make this Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect; and (v) that all reasonable enquiries have been made to ascertain all facts and to verify the accuracy of all statements contained herein.

No person has been authorised to give any information which is not contained in or not consistent with this Prospectus or any other information supplied in connection with the Programme and, if given or made, such information must not be relied upon as having been authorised by or on behalf of the Issuer or the Arranger.

The delivery of this Prospectus or any relevant Final Terms and the offering, sale or delivery of any Notes may not be taken as an implication that the information contained in such documents is accurate and complete subsequent to their respective dates of issue or that there has been no adverse change in the financial condition of the Issuer since such date or that any other information supplied in connection with the Programme is accurate at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The Issuer has given an undertaking to the Arranger, and is obliged by the provisions of the Prospectus Regulation, that if at any time during the duration of the Programme there is a significant new factor, material mistake or material inaccuracy relating to the information included in this Prospectus which may affect the assessment of any Notes and which arises or is noted between the time when this Prospectus is approved and the closing of the offer period of such Notes or the time when trading on a regulated market begins, whichever occurs later, the Issuer shall prepare a supplement to this Prospectus or publish a consolidated Prospectus (Article 23(6) of the Prospectus Regulation) for use in connection with any subsequent offering of the Notes and shall supply to the FMA and the Vienna Stock Exchange such number of copies of such supplement to this Prospectus or such consolidated Prospectus as relevant applicable legislation require.

To the extent permitted by the laws of any relevant jurisdiction neither the Arranger nor any person mentioned in this Prospectus, excluding the Issuer, is responsible for the information contained in this Prospectus or any supplement thereof, or any relevant Final Terms or any other document incorporated herein by reference and, accordingly, to the extent permitted by the laws of any relevant jurisdiction, none of these persons accepts any responsibility for the accuracy and completeness of the information contained in any of these documents.

The distribution of this Prospectus and of any relevant Final Terms and the offering, sale and delivery of Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus or any relevant Final Terms come are required to inform themselves about and observe any such restrictions. For a description of the restrictions applicable in the EEA and the United Kingdom ("**UK**") see the section "*Selling Restrictions*". Further restrictions may be disclosed in the relevant Final Terms. In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933, as amended, and may include Notes in bearer form that are subject to tax law requirements of the United States of America; subject to certain exceptions, the Notes may not be offered, sold or delivered within the United States of America or to U.S. persons.

Prospective holders of Notes (each a "**Holder**") should note that the tax legislation of the investor's member state and of the Issuer's country of incorporation may have an impact on the income received from Notes. Prospective Holders should consult their tax advisers as to the relevant tax consequences of the ownership and disposition of Notes.

The relevant Final Terms in respect of any Notes include a legend entitled "**MiFID II Product Governance**" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID II Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID II Product Governance Rules**"), any dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules.

The relevant Final Terms in respect of any Notes may include a legend entitled "**UK MiFIR Product Governance**" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. A distributor should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97, as amended ("**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, no key information document required by Regulation (EU) No 1286/2014, as amended (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 ("**FSMA**") and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

This Prospectus may only be used for the purpose for which it has been published.

This Prospectus and any relevant Final Terms may not be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

This Prospectus and any relevant Final Terms do not constitute an offer or an invitation by or on behalf of the Issuer or any dealers to any person to subscribe for or to purchase any Notes.

In connection with the issue of any Tranche of Notes, (a) stabilising manager(s) (or persons acting on behalf of any stabilising manager(s)) may be named in the relevant Final Terms (if any) to over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of

the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant stabilising manager(s) (or person(s) acting on behalf of any stabilising manager(s)) in accordance with all applicable laws and rules.

Any websites included in this Prospectus, except where stated otherwise in this Prospectus, are for information purposes only and do not form part of this Prospectus.

Unless increased (as described below), the maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed EUR 2,000,000,000 (and for this purpose, any Notes denominated in another currency shall be translated into Euro in accordance with the provisions of the programme agreement dated 19 May 2022 and concluded between the Issuer and the Arranger (as amended and supplemented from time to time, the "**Programme Agreement**"). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Programme Agreement.

Amounts payable under Notes with variable and/or structured interest rates may be calculated by reference to EURIBOR (Euro Interbank Offered Rate) which is provided by the European Money Markets Institute ("**EMMI**"). As at the date of this Prospectus, EMMI appears on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of Regulation (EU) 2016/1011, as amended ("**Benchmark Regulation**"). The relevant Final Terms may set out specific (updated) information in relation to the reference (interest) rate(s), administrator(s) and related information for the respective issue of Notes.

THIRD PARTY INFORMATION

Where information has been sourced from a third party, the Issuer confirms that this information has been accurately reproduced and that, so far as the Issuer is aware and able to ascertain from information published by such third party, no facts have been omitted which would render the reproduced information inaccurate or misleading.

FORWARD-LOOKING STATEMENTS

This Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. Forward-looking statements are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements may be identified by the use of terms and phrases such as "*anticipate*", "*believe*", "*could*", "*estimate*", "*expect*", "*intend*", "*may*", "*plan*", "*predict*", "*project*", "*will*" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Prospectus containing information on future earning capacity, plans and expectations regarding the Issuer's together with its affiliates' (together the "**Kommunalkredit Group**") business and management, growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Prospectus are based on current estimates and assumptions that the Issuer makes to the best of its present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including Kommunalkredit Group's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. Kommunalkredit Group's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the section "*Risk Factors*" in this Prospectus. This section includes more detailed descriptions of factors that might have an impact on Issuer's business and the markets in which it operates.

In light of these risks, uncertainties and assumptions, future events described in this Prospectus may not occur. In addition, neither the Issuer nor the Arranger assume any obligation, except as required by law, to update any forward-looking statement or to conform these forward-looking statements to actual events or developments.

RISK FACTORS

Risk factors regarding the Issuer

Prospective investors should consider carefully the risks set forth below and the other information contained in this Prospectus prior to making any investment decision with respect to any Notes. Prospective investors should note that the risks described below are not the only risks the Issuer faces. The Issuer has described only those risks relating to its business, operations, financial condition or prospects that it considers to be material and specific and of which it is currently aware. There may be additional risks that the Issuer currently considers not to be material and specific or of which it is not currently aware, and any of these risks could have the effects set forth above.

Prospective investors should also read the detailed information set out elsewhere in this Prospectus and should consult with their own professional advisers (including their financial, accounting, legal and tax advisers) and reach their own views prior to making any investment decision.

Each of the Issuer related risks highlighted below could have a material adverse effect on the Issuer's business, operations, financial condition or prospects which, in turn, could have a material adverse effect on the amount of principal and interest (if applicable) which investors will receive in respect of any Notes. In addition, each of the Issuer related risks highlighted below could adversely affect the trading price of the Notes or the rights of investors under the Notes and, as a result, investors could lose some or all of their investment.

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. Most of these factors are contingencies which may or may not occur. Below the Issuer expresses its view on the likelihood of any such contingency occurring as of the date of this Prospectus.

The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate.

The most material risk factor is mentioned first.

Credit risk is the most significant risk that the Issuer is exposed to. Given that the Issuer devotes approximately 80 per cent. of its balance sheet to lending, mostly in infrastructure and energy and in public finance, a severe downturn affecting these segments may expose the Issuer to defaults in its credit portfolio. This could not only affect the Issuer's ability to generate new business but, if the Issuer were to incur credit losses exceeding its loan loss provisions, this could also materially negatively affect the financial position of the Issuer and accordingly, its ability to service its obligations under the Notes. Furthermore, credit rating downgrades of Austria could negatively affect the market price of outstanding covered bonds and the Issuer's ability to access capital markets funding.

Credit risk is the risk of partial or complete default of agreed payments, in particular interest and/or principal payments, to be made by a debtor to the Issuer or deterioration in the quality of the Issuer's loan portfolio (due to deterioration in economic conditions). The Issuer devotes approximately 80 per cent. of its balance sheet to lending, mostly in infrastructure and energy and in public finance. Therefore, credit risk is the most significant risk for the Issuer.

About two thirds of the Issuer's loan portfolio consists of infrastructure and energy financing. This part of the portfolio is regionally concentrated in Europe. From a sectoral perspective, most of this exposure is in renewable and conventional energy as well as transportation, communication & digitalisation and technical and social infrastructure. The Issuer also intends to intensify activities in equity transactions in the infrastructure and energy financing in the future. Therefore, in a severe downturn across Europe affecting the use of, and demand for, the above referenced infrastructure and energy assets, the Issuer may be exposed to defaults in its credit portfolio. Given the average exposure size relative to the Issuer's own funds, a complete default of a limited number of counterparties could have a negative impact on the Issuer's capital. In such scenario, the Issuer's large lending limit would be reduced, resulting in a negative impact on the Issuer's ability to generate new business and consequently its financial performance. Furthermore, the occurrence of the credit risk can result in credit losses which exceed the amount of the Issuer's loan loss provisions and could thus materially negatively affect the financial position of the Issuer and accordingly, its ability to service its obligations under the Notes.

About a third of the Issuer's credit portfolio is public finance. The Issuer is exposed to credit risk stemming from a multitude of mainly Austrian provinces and municipalities. In the event of a significant economic

downturn in Austria, Austrian provinces' and municipalities' ability to meet their financial obligations might be impaired. In such an event, the Issuer would likely suffer a significant adverse effect on its financial result as well as on the quality of its balance sheet. Furthermore, most of these assets are assigned as collateral in the Issuer's cover pool for public sector covered bonds. A deterioration of the credit rating of Austria may negatively affect the credit quality of the Issuer's cover pool. Assuming no further measures are taken by the Issuer, a lower credit quality of its cover pool assets may lead to a downgrade of the covered bonds of the Issuer. Such downgrade may reduce the market price of outstanding covered bonds and would also negatively affect the Issuer's ability to access capital markets funding by means of issue of Notes.

Unfavourable developments in debt markets, fluctuations of credit spreads, foreign exchange rates or interest rates may affect the market value and liquidity of the Issuer's assets and liabilities.

The Issuer's business activities are directly dependent on capital market conditions. Potential unfavorable developments in debt markets, fluctuations of credit spreads, foreign exchange rates or interest rates may affect the market value and liquidity of the Issuer's assets and liabilities. The most important market risk for the Issuer is credit spread risk. The Issuer syndicates a significant portion of the infrastructure and energy transactions it originates to institutional investors. The Issuer's exposure to a single asset before syndication is higher than the exposure that remains in the Issuer's banking book after syndication. During the syndication period of single assets, the Issuer has a substantial exposure to credit spread risk. Market volatility and a corresponding widening of credit spreads could ultimately result in the Issuer's inability to divest assets intended for syndication. This would have a negative impact on the Issuer's ability to generate new business, which in turn might decrease its profitability. In a "fire sale" scenario, where the Issuer is forced to reduce exposure substantially within a short period of time, credit spread risk could again become relevant, negatively affecting the valuation of the assets being sold, and the realization of such losses potentially negatively affecting the Issuer's ability to fulfil its obligations.

As a small institution, the Issuer is particularly exposed to operational risk, i.e. risks resulting from the inadequacy or failure of internal processes, systems and procedures, personnel or the occurrence of external events.

Operational risks comprise the risk of losses resulting from the inadequacy or failure of internal processes, systems and procedures, personnel or the occurrence of external events. These include internal risks such as theft and fraud by personnel, development and process failures, interruption of operations and lack of human resources as well as external risk factors such as property damage and fraud by customers (fraud risk). The realization of such risks can lead to increased costs or loss of earnings for the Issuer. As a small institution, the Issuer has limited personnel and is more exposed to operational risks than larger institutions. The simultaneous departure of key personnel could impact the Issuer's ability to maintain its business operations and might negatively affect its profitability. Furthermore, the Issuer's business activities depend to a large extent on the functionality of its communication and data processing systems (IT systems). Failures and interruptions of data processing/IT systems can impair the operation of the various business areas of the Issuer and thus significantly affect the net assets, financial position and results of operations of the Issuer. In addition, the threat of cyber-attacks is increasing. Such external attacks on the assets of the Issuer or its customers can lead to a negative public perception of the Issuer (reputation risk) and to a negative impact on the assets, financial and earnings position of the Issuer.

The Issuer is dependent on funding sources (capital markets, customer deposits), the availability of which depends partly upon factors outside of its control.

About half of the Issuer's existing funding depends on private placements and public offers of debt instruments on international and local capital markets. The Issuer's continuing ability to access such funding sources is dependent upon a variety of factors, including factors outside of its control, such as prevailing market conditions, regulatory requirements pursuant to which, among others, certain liabilities of the Issuer, including senior liabilities, may be subject to regulatory bail-in and other regulatory developments. These developments may make investors more cautious in investing in debt instruments, especially as the Issuer has not been a frequent issuer on capital markets in recent years. Accordingly, the Issuer might not be able to further access such funding sources or will only be able to refinance at higher funding costs.

About half of the Issuer's funding is comprised of deposits from retail customers, municipalities, public sector entities and wholesale customers. The continuing ability of the Issuer to access these funding sources is dependent upon a variety of factors outside its control, such as a loss of confidence of depositors in either the economy in general, the financial services industry in general, or the Issuer in particular. Specifically, the loss of the Issuer's current credit rating may have an impact on the Issuer's ability to access these funding sources. Furthermore, a negative public perception of the Issuer may result in customers withdrawing or not prolonging

their deposits.

Therefore, the Issuer might either be unable to source the required amount of funding and meet its current and future payment obligations in full or on time, or the required funding might become more expensive for the Issuer, resulting in a deterioration of the net interest income of the Issuer.

Furthermore, the Issuer's funding requirements largely correlate with its ability to generate new business in line with its business plan. As part of its business model, the Issuer originates loans, which it further syndicates. Therefore, the Issuer is exposed to higher liquidity fluctuations due to larger liquidity outflows when financing loans and thereafter liquidity inflows at syndication of the loans. To be able to manage these liquidity fluctuations the Issuer holds considerable amounts of cash (up to 10 per cent. of its balance sheet size) with the local central bank. The current interest policy of the European Central Bank (*Europäische Zentralbank*) ("**ECB**") could result in a deterioration of the net interest income of the Issuer, by charging negative interest rates on the cash balances of the Issuer, as the negative interest rates can only partly be passed on to the deposit funding.

The worldwide corona virus pandemic (COVID-19) may have significant effects on the Issuer and its clients.

The Issuer is directly and through its clients exposed to certain risks in relation to the pandemic caused by the corona virus SARS CoV-2 ("**COVID-19**") and the measures taken by sovereigns, companies and others to prevent the spread of COVID-19. The worldwide rapid spread of the COVID-19 pandemic, the lockdowns and resulting economic downturns can lead to further deterioration than observed so far of financial conditions of the Issuer's customers, in general, and certain businesses, e.g. transportation infrastructure and energy in particular where these are exposed to market risks, and to a lesser extent of public sector entities. As a result, the Issuer's loan portfolio might experience further credit rating downgrades or payment delays, or subject to the duration of the COVID-19 pandemic, its quality could deteriorate, because the Issuer's customers may not be able to repay their loans as planned. If the economic conditions and the financial position of some individual borrowers worsen significantly, this could result in payment defaults and, accordingly, the booking of loan loss provisions or actual credit losses.

In response to the COVID-19 pandemic and its expected economic impact, governments in countries in which the Issuer operates have already taken or are likely to take state intervention measures, such as imposing payment moratoria, caps on interest rates, etc. to protect their citizens, national economies, currencies or fiscal income. Any of these or similar state intervention measures could have a material adverse effect on the Issuer's business, financial condition and results of operations through any individual or a combination of less interest income, higher risk costs or higher other costs.

The COVID-19 pandemic may also have a negative effect on the funding of the Issuer, as municipalities, public sector entities and wholesale customers affected by the developments relating to the COVID-19 pandemic may need to withdraw funds deposited with the Issuer, or may choose to extend their deposits but with shorter maturities. Retail customers who are faced with the effects of job loss, short-time work or loss of their business basis often have to access their savings earlier than expected. Such events might limit the access of the Issuer to the short-term funding sources it currently utilises. The COVID-19 pandemic can also trigger further credit rating reviews by credit rating agencies across all sectors, including the banking sector. Potential credit rating adjustments might affect the investment grade credit rating of the Issuer, a loss of such credit rating might lead to deposit outflows by some of the Issuer's wholesale customers or increase in funding costs. Finally, the COVID-19 pandemic might have a negative impact on the Issuer's ability to syndicate part of its exposure to third parties, as such third parties may suffer a negative impact on their ability or willingness to purchase credit exposure from the Issuer. In such a scenario, the Issuer might be required to increase its syndication provision or accept a lower price, both of which factors could have a negative impact on the Issuer's financial and earnings position.

Risk factors regarding the Notes

Prospective Holders of the Notes, which are the subject of this Prospectus and the relevant Final Terms, should consider the following risk factors, which are specific to the Notes and which are material for taking an informed investment decision and should make such decision only on the basis of this Prospectus as whole, including the relevant Final Terms.

No person should acquire Notes without a thorough understanding of the mechanism of the relevant Notes and without being aware of the potential risk of loss. Any prospective Holder should carefully examine whether an investment in the Notes is appropriate given his or her personal circumstances and financial situation.

Prospective investors should also read the detailed information set out elsewhere in this Prospectus and should consult with their own professional advisers (including their financial, accounting, legal and tax advisers) and reach their own views prior to making any investment decision.

Words and expressions defined in the section entitled "Terms and Conditions of the Notes" shall have the same meanings in this section "Risk factors regarding the Notes".

The risk factors herein are organised into the following categories below depending on their nature (with the most material risk factor mentioned first in each of the following categories):

Risk factors regarding the structure of the interest rate of the Notes

Holders of Notes which are endowed with a constant interest rate or with an increasing or decreasing interest rate are exposed to the risk that the market price of such Notes falls as a result of changes in the market interest rate.

A Holder of Notes which are endowed with a constant interest rate is exposed to the risk that the market price of such Notes falls as a result of changes in the market interest rate. While the nominal interest rate of Notes which are endowed with a constant interest rate as specified in the relevant Final Terms is fixed during the life of such Notes, the current interest rate on the capital market for issues of the same maturity (the "**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the market price of Notes which are endowed with a constant interest rate also changes, but in the opposite direction. If the market interest rate increases, the market price of Notes which are endowed with a constant interest rate typically falls, until the yield of such Notes is approximately equal to the market interest rate. If the market interest rate falls, the market price of Notes which are endowed with a constant interest rate typically increases, until the yield of such Notes is approximately equal to the market interest rate. The same risk applies to Notes which are endowed with an increasing or decreasing interest rate if the market interest rates in respect of comparable Notes are higher than the rates applicable to such Notes.

Holders of floating rate Notes may be exposed to the risk of fluctuating interest rate levels which make it impossible to determine the yield of such Notes in advance, and are exposed to the risk of uncertain interest income.

Floating rate Notes tend to be volatile investments. A Holder of floating rate Notes is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of floating rate Notes in advance. Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any floating rate Notes.

If floating rate Notes are structured to include caps, floors, a margin, a factor, or any combination of those features, the market price may be more volatile than those for floating rate Notes that do not include these features. The effect of a cap is that the amount of interest will never rise above and beyond the predetermined cap, so that the Holder will not be able to benefit from any actual favourable development beyond the cap. The yield could therefore be considerably lower than that of similar floating rate Notes without a cap.

The interest of floating rate Notes and in case the term of Covered Bank Bonds or Covered Bonds shall be extended the interest for the period from, and including, the (original) Maturity Date to, but excluding, the Extended Maturity Date will be calculated by reference to a specific benchmark index which may or have become the subject of regulatory measures that could have a material adverse effect on the market price of and return on any Notes linked to a Benchmark.

The interest of floating rate Notes and in case the term of Covered Bank Bonds or Covered Bonds shall be extended the interest for the period from, and including, the (original) Maturity Date to, but excluding, the Extended Maturity Date will be linked to reference rates such as the Euro Interbank Offered Rate (EURIBOR)

which are deemed to be "benchmarks" (each such reference rate a "**Benchmark**" and together, the "**Benchmarks**") and which are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms, such as the Benchmark Regulation, are already effective while others are still to be implemented.

Following the implementation of potential reforms, the manner of administration of Benchmarks may change, with the result that they perform differently than in the past, or Benchmarks could be eliminated entirely, or become otherwise unavailable, or there could be consequences which cannot be predicted. Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives could have a material adverse effect on the costs of obtaining exposure to a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks.

If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for Notes with a variable interest rate which is linked to such Benchmark might be determined for the relevant interest period by fall-back provisions as set out in the Terms and Conditions of such Notes, which ultimately could result in (i) the same reference rate of that Benchmark being applied for the determination of the relevant rates of interest until maturity of the floating rate Notes and in case of Covered Bank Bonds which shall be extended until the Extended Maturity Date or in case of Covered Bonds which shall be extended until the Extended Maturity Date, effectively turning the floating rate of interest into a fixed rate of interest or (ii) the early redemption of the Notes at the option of the Issuer. In the first case, a Holder would no longer participate in any favourable movements of market interest rates, including central banks' key interest rates, that would have been reflected in the relevant reference rate if the Benchmark would not have been discontinued or otherwise been unavailable, and payments of interest under the such Notes would be lower than they would have been had the Benchmark not been discontinued or otherwise been unavailable. In relation to the second case, please see the risk factors "*In the event that any Notes are redeemed prior to their maturity, a Holder of such Notes may be exposed to the risk that his investment will have a lower than expected yield.*" and "*In case of an early redemption of any Notes, there is a risk that Holders may not be able to reinvest proceeds from the Notes in such a way that they earn the same rate of return.*" below.

Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method for determining a Benchmark could have an effect on the market price of any Notes whose interest is linked to the relevant Benchmark, Holders face the risk that any changes to the relevant Benchmark may have a material adverse effect on the market price or the liquidity of, and the amounts payable under Notes whose rate of interest is linked to a Benchmark.

Risk factor regarding the investment in the Notes

Credit ratings of Notes (if any) may not adequately reflect all risks of the investment in such Notes, credit rating agencies could assign unsolicited credit ratings, and credit ratings may be suspended, downgraded or withdrawn, all of which could have an adverse effect on the market price and trading price of the Notes.

A credit rating of Notes (if any) may not adequately reflect all risks of the investment in such Notes. Credit rating agencies could decide to assign credit ratings to the Notes on an unsolicited basis. Equally, credit ratings may be suspended, downgraded or withdrawn. Any such unsolicited credit rating, suspension, downgrading or withdrawal may have an adverse effect on the market price and trading price of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the credit rating agency at any time.

Risk factors regarding certain provisions of the Terms and Conditions of the Notes

In the event that any Notes are redeemed prior to their maturity, a Holder of such Notes may be exposed to the risk that his investment will have a lower than expected yield.

The relevant Final Terms will indicate whether the Issuer may have the right to redeem the Notes prior to maturity (an optional call right) or whether the Notes will be subject to early redemption upon the occurrence of an event specified in the applicable Final Terms (an early redemption event). If the Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a Holder of such Notes is exposed to the risk that, due to early redemption, its investment will have a lower than expected yield. The Issuer might exercise its optional call right if the yield on comparable Notes in the capital

markets falls, which means that the Holder may only be able to reinvest the redemption proceeds in Notes with a lower yield or with a similar yield of a higher risk.

The relevant Final Terms may provide for a right of early redemption by the Issuer only and thus, Holders usually receive a higher yield on their Notes than they would if they were also granted a right to early redeem the Notes reflecting the higher risk of early redemption the Holders of such Notes are exposed to.

In case of an early redemption of any Notes, there is a risk that Holders may not be able to reinvest proceeds from the Notes in such a way that they earn the same rate of return.

Holders may be subject to the risk that any return earned from an investment in the Notes may not in the event of an early redemption of any Notes be able to be reinvested in such a way that they earn the same rate of return as the redeemed Notes.

In case of Notes governed by Austrian law the statutory limitation period provided under Austrian law regarding claims for payment of principal is reduced to ten years as of the maturity date in the Terms and Conditions of the Notes.

In case of Notes governed by Austrian law the statutory limitation period of 30 years provided under Austrian law with respect to principal is reduced to ten years pursuant to the Terms and Conditions of the Notes. In case of shortening of the limitation period the likelihood that the Holder will not receive the amounts due increases since the Holder will have less time to assert his claims under the Notes in comparison to holders of debt instruments the terms and conditions of which do not shorten the statutory presentation period at all or to a lesser degree than in the relevant Terms and Conditions of the Notes.

Risk factors regarding Covered Bank Bonds³

To the extent claims of Holders under the Covered Bank Bonds are not covered by the assets of the cover pool they are exposed to the risk of statutory loss absorption.

The Single Resolution Mechanism shall provide the relevant resolution authorities with uniform and effective resolution tools and resolution powers in order to achieve the resolution objectives.

The main resolution tool is the bail-in tool. When applying the bail-in tool, the resolution authority shall exercise the write-down and conversion powers in accordance with the following sequence (also called "loss absorbing cascade"): (i) Common Equity Tier 1 ("**CET 1**") items; (ii) Additional Tier 1 ("**AT 1**") instruments; (iii) Tier 2 instruments; (iv) subordinated debt that is not AT 1 or Tier 2 capital; (v) unsecured claims resulting from debt instruments within the meaning of § 131(3) BaSAG (so-called "non-preferred senior debt instruments"); and (vi) the rest of bail-inable liabilities (such as any liabilities under the Covered Bank Bonds which are not covered by the assets of the cover pool) in accordance with the hierarchy of claims in bankruptcy proceedings, including the ranking provided for deposits in § 131 of the Austrian Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz – "BaSAG"*), to the extent required.

To the extent claims of Holders under the Covered Bank Bonds are not covered by the assets of the cover pool, these claims may be subject to the bail-in tool and thus be fully or partially written down or converted into instruments of ownership. For the avoidance of doubt, the aforesaid applies also to claims under Covered Bank Bonds which are not covered by the assets of the cover pool issued as green bonds, sustainability bonds or social bonds.

In case of an insolvency of the Issuer, certain deposits and certain other claims have a higher ranking than claims resulting from the Covered Bank Bonds if and to the extent their claims are not covered by the assets of the cover pool.

According to § 131 BaSAG, in bankruptcy proceedings opened over the Issuer's assets, the following insolvency hierarchy applies to deposits and senior unsecured claims:

- (a) (i) covered deposits; and (ii) deposit guarantee schemes subrogating to the rights and obligations of covered depositors in insolvency;
- (b) (i) that part of eligible deposits from natural persons and micro, small and medium-sized enterprises which exceeds the covered deposits; and (ii) deposits that would be eligible deposits from natural

³ The risk factors in this section apply to Covered Bank Bonds to be issued until the PfandBG enters into force on 8 July 2022.

persons, micro, small and medium-sized enterprises if they are not made through branches (located outside the EU) of institutions established within the EU;

- (c) the liquidity reserve within a liquidity association pursuant to § 27a BWG and within a credit institution association pursuant to § 30a BWG, in each case, to the extent required by § 27a BWG;
- (d) ordinary unsecured claims (such as any claims resulting from the Covered Bank Bonds which are not covered by the assets of the cover pool); and
- (e) unsecured claims resulting from debt instruments within the meaning of § 131(3) BaSAG (so-called "non-preferred senior debt instruments"), i.e. debt instruments that meet the following conditions: (i) the original contractual maturity of the debt instruments is of at least one year; (ii) the debt instruments contain no embedded derivatives and are not derivatives themselves; and (iii) the relevant contractual documentation and, where applicable, the prospectus related to the issuance explicitly refer to the lower ranking under § 131(3) BaSAG.

Therefore, in case of bankruptcy proceedings and any comparable proceedings (such as resolution proceedings) opened in relation to the Issuer, any claims resulting from the Covered Bank Bonds which are not covered by the assets of the cover pool are junior to the claims listed in points (a) to (c). For this reason, any payments on any claims resulting from the Covered Bank Bonds which are not covered by the assets of the cover pool would only be made, if and to the extent any senior ranking claims have been fully satisfied.

The cover assets or the liquidity buffer for the Covered Bank Bonds may not at all times be sufficient to cover the Issuer's obligations under the Covered Bank Bonds or replacement assets may not be added in due time to the cover pool.

The Covered Bank Bonds are covered (*gedeckt*) by assets (*Vermögenswerte*) which meet the requirements set out in the Austrian Act on Covered Bank Bonds (*Gesetz betreffend fundierte Bankschuldverschreibungen – "FBSchVG"*). Payment claims of Holders of the Covered Bank Bonds are collateralized by a cover pool of cover assets for public Covered Bank Bonds (*Deckungsstock für öffentlich fundierte Bankschuldverschreibungen*). In the event of insolvency or enforcement proceedings regarding the Issuer or its assets, the relevant cover assets are separated from the Issuer's other assets and may not be used to satisfy claims of creditors of the Issuer other than the Holders of Covered Bank Bonds which are covered by these cover assets.

The cover assets of the cover pool relevant for the respective Covered Bank Bonds may not at all times be sufficient to cover the obligations under the respective Covered Bank Bonds or replacement assets may not be added in due time to the cover pool.

There is also the risk that based on the current uncertainties regarding the interpretation of the relevant provisions in relation to the liquidity buffer in the PfandBG among Austrian issuers of covered bonds no sufficient liquidity buffer within the meaning of § 21 PfandBG is built up from assets eligible to cover the net liquidity outflow of the covered bond programme for the Covered Bank Bonds. Also, even if such liquidity buffer can be built up, it may not at all times be sufficient to cover the net liquidity outflow of the covered bond programme.

Certain Covered Bank Bonds could be redeemed after their Maturity Date.

The Terms and Conditions of the Covered Bank Bonds may provide that their term is extended to the Extended Maturity Date, if the Issuer is unable to pay the outstanding aggregate principal amount of the Covered Bank Bonds on the Maturity Date. In such case, the Issuer will without undue delay, but in any case not later than the number of business days specified in the relevant Final Terms prior to the Maturity Date, inform the Holders that an extension of the term of the Covered Bank Bonds has occurred by publishing a notice which will specify the Extended Maturity Date.

However, such extension of maturity will not constitute an event of default and Holders will not receive any compensation for such extension (other than that interest will accrue). Therefore, Holders must not expect repayment of the outstanding aggregate principal amount on the (original) Maturity Date of the Covered Bank Bonds and are not entitled to terminate the Covered Bank Bonds if the term of the Covered Bank Bonds is extended. Furthermore, Holders may receive lower interest payments during such extended period as the relevant applicable rate of interest may be lower than the rate of interest which applied in the preceding interest periods.

Risk factors regarding Covered Bonds⁴

To the extent claims of Holders under the Covered Bonds are not covered by the assets of the cover pool they are exposed to the risk of statutory loss absorption.

The Single Resolution Mechanism shall provide the relevant resolution authorities with uniform and effective resolution tools and resolution powers in order to achieve the resolution objectives.

The main resolution tool is the bail-in tool. When applying the bail-in tool, the resolution authority shall exercise the write-down and conversion powers in accordance with the following sequence (also called "loss absorbing cascade"): (i) Common Equity Tier 1 ("**CET 1**") items; (ii) Additional Tier 1 ("**AT 1**") instruments; (iii) Tier 2 instruments; (iv) subordinated debt that is not AT 1 or Tier 2 capital; (v) unsecured claims resulting from debt instruments within the meaning of § 131(3) BaSAG (so-called "non-preferred senior debt instruments"); and (vi) the rest of bail-inable liabilities (such as any liabilities under the Covered Bonds which are not covered by the assets of the cover pool) in accordance with the hierarchy of claims in bankruptcy proceedings, including the ranking provided for deposits in § 131 of the Austrian Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz* – "**BaSAG**"), to the extent required.

To the extent claims of Holders under the Covered Bonds are not covered by the assets of the cover pool, these claims may be subject to the bail-in tool and thus be fully or partially written down or converted into instruments of ownership. For the avoidance of doubt, the aforesaid applies also to claims under Covered Bonds which are not covered by the assets of the cover pool issued as green bonds, sustainability bonds or social bonds.

In case of an insolvency of the Issuer, certain deposits and certain other claims have a higher ranking than claims resulting from the Covered Bonds if and to the extent their claims are not covered by the assets of the cover pool.

According to § 131 BaSAG, in bankruptcy proceedings opened over the Issuer's assets, the following insolvency hierarchy applies to deposits and senior unsecured claims:

- (a) (i) covered deposits; and (ii) deposit guarantee schemes subrogating to the rights and obligations of covered depositors in insolvency;
- (b) (i) that part of eligible deposits from natural persons and micro, small and medium-sized enterprises which exceeds the covered deposits; and (ii) deposits that would be eligible deposits from natural persons, micro, small and medium-sized enterprises if they are not made through branches (located outside the EU) of institutions established within the EU;
- (c) the liquidity reserve within a liquidity association pursuant to § 27a BWG and within a credit institution association pursuant to § 30a BWG, in each case, to the extent required by § 27a BWG;
- (d) ordinary unsecured claims (such as any claims resulting from the Covered Bonds which are not covered by the assets of the cover pool); and
- (e) unsecured claims resulting from debt instruments within the meaning of § 131(3) BaSAG (so-called "non-preferred senior debt instruments"), i.e. debt instruments that meet the following conditions: (i) the original contractual maturity of the debt instruments is of at least one year; (ii) the debt instruments contain no embedded derivatives and are not derivatives themselves; and (iii) the relevant contractual documentation and, where applicable, the prospectus related to the issuance explicitly refer to the lower ranking under § 131(3) BaSAG.

Therefore, in case of bankruptcy proceedings and any comparable proceedings (such as resolution proceedings) opened in relation to the Issuer, any claims resulting from the Covered Bonds which are not covered by the assets of the cover pool are junior to the claims listed in points (a) to (c). For this reason, any payments on any claims resulting from the Covered Bonds which are not covered by the assets of the cover pool would only be made, if and to the extent any senior ranking claims have been fully satisfied.

⁴ The risk factors in this section apply to Covered Bonds to be issued from the entry into force of the PfandBG on 8 July 2022.

If the relevant Final Terms provide for conditions for a maturity extension Covered Bonds may be redeemed after their Maturity Date and in case a maturity extension for a specific series of Covered Bonds is triggered, Holders of other series of Covered Bonds whose maturity date would fall within the period of the maturity extension of a specific series of Covered Bonds will not receive their principal amount as expected on the relevant maturity date.

The relevant Final Terms may provide that upon the occurrence of the objective trigger event (as set out in the Terms and Conditions of the Covered Bonds) the maturity of the Covered Bonds will be postponed once by up to 12 months to the Extended Maturity Date. In the event of a maturity extension, repayment of the outstanding aggregate principal amount will be postponed and, notwithstanding the statutory regime on acceleration and liquidation of the cover asset pool, shall become due and payable on the Extended Maturity Date, together with accrued interest, if any, to, but excluding, the Extended Maturity Date.

In such case, interest will continue to accrue on the outstanding aggregate principal amount of the Covered Bonds during the period from, and including, the (original) Maturity Date to, but excluding, the Extended Maturity Date at the relevant rate of interest set out in the relevant Final Terms and will be payable by the Issuer on each Interest Payment Date from, but excluding, the (original) Maturity Date to, and including, the Extended Maturity Date (each as set out in the relevant Final Terms) in accordance with the relevant Terms and Conditions of the Covered Bonds. However, such extension of maturity will not constitute an event of default and Holders will not receive any compensation for such extension (other than that interest will accrue).

The Holders shall not be entitled to any further interest payments as from the Extended Maturity Date. Thus, Holders must not expect repayment of the outstanding aggregate principal amount on the (original) Maturity Date and are not entitled to terminate the Covered Bonds if the term of the Covered Bonds is extended. Furthermore, Holders may receive lower interest payments during such extended period as the relevant applicable rate of interest may be lower than the (respective) rate of interest which applied in the preceding interest periods.

Furthermore, a maturity extension must not change the sequence of the original maturity schedule of the covered bond programme. Consequently, if a maturity extension by up to 12 months for a specific series of Covered Bonds is triggered, the maturity of other series of Covered Bonds within a covered bond programme shall be deemed postponed (regardless of whether they provide for maturity extension structures or not), in each case, for so long as necessary to maintain the sequence of the original maturity schedule. As a result, Holders of such other series of Covered Bonds whose maturity date would fall within the period of the maturity extension by up to 12 months of a specific series of Covered Bonds bear the risk that they do not receive their principal amount as expected on the relevant maturity date. Such Holders will receive their principal amount on a later date once all payments under the specific series of Covered Bonds for which the maturity extension was triggered have been serviced in full on the Extended Maturity Date determined for such series of Covered Bonds. Such payment deferral for the other series of Covered Bonds does not constitute an event of default of the Issuer for any purpose and does not give the Holders of such other series of Covered Bonds any right to accelerate or terminate the Covered Bonds. Holders should also be aware that the repayment of another series of Covered Bonds after a maturity extension by up to 12 months of such series of Covered Bonds might result in the available assets of the cover pool being reduced or depleted, thereby causing the necessity of a maturity extension of the Covered Bonds of the respective Holders.

Finally, as a maturity extension will be initiated by a special administrator, and the Extended Maturity Date will be set by such special administrator without the Issuer having any discretion in it, Holders should be aware that they have no right to request such maturity extension, and it therefore might occur that no maturity extension will be made and cover pool assets might be liquidated at a time of market disruptions and/or low prices, resulting in the liquidation proceeds being less than if the maturity had been extended by the special administrator.

The cover assets or the liquidity buffer for the Covered Bonds may not at all times be sufficient to cover the Issuer's obligations under the Covered Bonds or replacement assets may not be added in due time to the cover pool.

The Covered Bonds are covered (*gedeckt*) by assets (*Vermögenswerte*) which meet the requirements set out in the PfandBG. Payment claims of Holders of the Covered Bonds are collateralized by a cover pool of cover assets for public Covered Bonds (*Deckungsstock für öffentlich gedeckte Schuldverschreibungen*). In the event of insolvency, resolution or enforcement proceedings regarding the Issuer or its assets, the relevant cover assets are separated from the Issuer's other assets and may not be used to satisfy claims of creditors of the Issuer other than the Holders of Covered Bonds which are covered by these cover assets.

The cover assets of the cover pool relevant for the respective Covered Bonds may not at all times be sufficient to cover the obligations under the respective Covered Bonds or replacement assets may not be added in due time to the cover pool. Furthermore, loan receivables may only be entered in the cover register as cover assets with the consent of the borrower. Without the legally required consent, an entry is not deemed to have been made, and in such case loan receivables entered in the cover register would cease to be cover assets and thus other cover assets or replacement assets which an Issuer might not necessarily have available at all times would need to be added to the cover pool.

There is also the risk that no sufficient liquidity buffer within the meaning of § 21 PfandBG will be built up from assets eligible to cover the net liquidity outflow of the covered bond programme for the Covered Bonds. Also, even if such liquidity buffer can be built up, it may not at all times be sufficient to cover the net liquidity outflow of the covered bond programme.

Risk factors regarding Ordinary Senior Eligible Notes

Holders of the Ordinary Senior Eligible Notes are exposed to the risk of statutory loss absorption.

The Single Resolution Mechanism shall provide the relevant resolution authorities with uniform and effective resolution tools and resolution powers in order to achieve the resolution objectives.

The main resolution tool is the bail-in tool. When applying the bail-in tool, the resolution authority shall exercise the write-down and conversion powers in accordance with the following sequence (also called "loss absorbing cascade"): (i) CET 1 items; (ii) AT 1 instruments; (iii) Tier 2 instruments; (iv) subordinated debt that is not AT 1 or Tier 2 capital; (v) unsecured claims resulting from debt instruments within the meaning of § 131(3) BaSAG (so-called "non-preferred senior debt instruments"); and (vi) the rest of bail-inable liabilities (such as the Ordinary Senior Eligible Notes) in accordance with the hierarchy of claims in bankruptcy proceedings, including the ranking provided for deposits in § 131 BaSAG, to the extent required.

If the power of write-down or conversion of relevant capital instruments and eligible liabilities or bail-in tool is applied to the Issuer, the principal amount of the Ordinary Senior Eligible Notes may be fully or partially written down or converted into instruments of ownership, although claims of other creditors of the Issuer might not be affected. For the avoidance of doubt, the aforesaid applies also to Ordinary Senior Eligible Notes issued as green bonds, sustainability bonds or social bonds.

In case of an insolvency of the Issuer, certain deposits and certain other claims have a higher ranking than claims resulting from the Ordinary Senior Eligible Notes.

According to § 131 BaSAG, in bankruptcy proceedings opened over the Issuer's assets, the following insolvency hierarchy applies to deposits and senior unsecured claims:

- (a) (i) covered deposits; and (ii) deposit guarantee schemes subrogating to the rights and obligations of covered depositors in insolvency;
- (b) (i) that part of eligible deposits from natural persons and micro, small and medium-sized enterprises which exceeds the covered deposits; and (ii) deposits that would be eligible deposits from natural persons, micro, small and medium-sized enterprises if they are not made through branches (located outside the EU) of institutions established within the EU;
- (c) the liquidity reserve within a liquidity association pursuant to § 27a BWG and within a credit institution association pursuant to § 30a BWG, in each case, to the extent required by § 27a BWG;
- (d) ordinary unsecured claims (such as claims resulting from the Ordinary Senior Eligible Notes); and
- (e) unsecured claims resulting from debt instruments within the meaning of § 131(3) BaSAG (so-called "non-preferred senior debt instruments"), i.e. debt instruments that meet the following conditions: (i) the original contractual maturity of the debt instruments is of at least one year; (ii) the debt instruments contain no embedded derivatives and are not derivatives themselves; and (iii) the relevant contractual documentation and, where applicable, the prospectus related to the issuance explicitly refer to the lower ranking under § 131(3) BaSAG.

Therefore, in case of bankruptcy proceedings and any comparable proceedings (such as resolution proceedings) opened in relation to the Issuer, claims resulting from the Ordinary Senior Eligible Notes are junior to the claims listed in points (a) to (c). For this reason, any payments on claims resulting from the Ordinary Senior Eligible Notes would only be made, if and to the extent any senior ranking claims have been fully satisfied.

The Ordinary Senior Eligible Notes may be redeemed at the option of the Holders (if at all) only subject to the prior permission of the Resolution Authority.

If such right is foreseen in the relevant Final Terms, Holders of the Ordinary Senior Eligible Notes will have the right to call for the early redemption of their Ordinary Senior Eligible Notes, provided however, only subject to certain conditions, in particular the prior permission of the Resolution Authority.

Therefore, Holders of the Ordinary Senior Eligible Notes may be required to bear the financial risks of an investment in the Ordinary Senior Eligible Notes until their final maturity.

The Ordinary Senior Eligible Notes may be redeemed at any time for reasons of taxation or regulatory reasons.

If such right is foreseen in the relevant Final Terms, the Issuer may at its sole discretion, early redeem the Ordinary Senior Eligible Notes before their stated maturity, at any time for reasons of taxation.

In any case, the Issuer may at its sole discretion, early redeem the Ordinary Senior Eligible Notes before their stated maturity, at any time for regulatory reasons.

Therefore, Holders are exposed to the risk that the Ordinary Senior Eligible Notes will be early redeemed and thus, investors will not be able to hold the Ordinary Senior Eligible Notes until the stated maturity and accordingly, might not achieve the expected yield.

The rights of the Issuer to early redeem or repurchase the Ordinary Senior Eligible Notes are subject to the prior permission of the Resolution Authority.

The Issuer may, at its sole discretion, early redeem the Ordinary Senior Eligible Notes at any time either for reasons of taxation (if such right is foreseen in the relevant Final Terms) or regulatory reasons. In addition, if such right is foreseen in the relevant Final Terms, the Issuer may at its sole discretion redeem the Ordinary Senior Eligible Notes before their stated maturity on a specified call redemption date.

Any early redemption and any repurchase of the Ordinary Senior Eligible Notes are subject to the prior permission of the Resolution Authority. Under the CRR, the Resolution Authority may only permit institutions to early redeem or repurchase eligible liabilities instruments (such as the Ordinary Senior Eligible Notes) if certain conditions are met. These conditions, as well as a number of other technical rules and standards relating to regulatory capital requirements applicable to the Issuer, should be taken into account by the Resolution Authority in its assessment of whether or not to permit any early redemption or repurchase. It is uncertain how the Resolution Authority will apply these criteria in practice and such rules and standards may change during the term of the Ordinary Senior Eligible Notes. It is therefore not possible to assess whether, and if so, on what terms, the Resolution Authority will grant its prior permission for any early redemption or repurchase of the Ordinary Senior Eligible Notes.

Furthermore, even if the Issuer would be granted the prior permission of the Resolution Authority, any decision by the Issuer as to whether it will early redeem the Ordinary Senior Eligible Notes will be made at the sole discretion of the Issuer with regard to external factors (such as the economic and market impact of exercising an early redemption right, regulatory capital requirements and prevailing market conditions). There is the risk that the Issuer will not exercise any early redemption right in relation to the Ordinary Senior Eligible Notes, and the Holders therefore may stay invested until the maturity date of the Ordinary Senior Eligible Notes.

The Ordinary Senior Eligible Notes do not give the right to accelerate future payments, and also may not be subject to set-off or any guarantee.

The Terms and Conditions of the Ordinary Senior Eligible Notes do not provide for any events of default and the Holders of the Ordinary Senior Eligible Notes do not have the right to accelerate any future scheduled payment of interest or principal. For the avoidance of doubt, the aforesaid applies also to Holders of Ordinary Senior Eligible Notes issued as green bonds, sustainability bonds or social bonds.

Furthermore, the Ordinary Senior Eligible Notes are not subject to any set off or netting arrangements that would undermine their capacity to absorb losses in resolution and are neither secured nor subject to a guarantee or any other arrangement that enhances the seniority of the claims under the Ordinary Senior Eligible Notes.

Risk factors regarding Non-Preferred Senior Eligible Notes

Holders of the Non-Preferred Senior Eligible Notes are exposed to the risk of statutory loss absorption.

The Single Resolution Mechanism shall provide the relevant resolution authorities with uniform and effective resolution tools and resolution powers in order to achieve the resolution objectives.

The main resolution tool is the bail-in tool. When applying the bail-in tool, the resolution authority shall exercise the write-down and conversion powers in accordance with the following sequence (also called "loss absorbing cascade"): (i) CET 1 items; (ii) AT 1 instruments; (iii) Tier 2 instruments; (iv) subordinated debt that is not AT 1 or Tier 2 capital; (v) unsecured claims resulting from debt instruments within the meaning of § 131(3) BaSAG (so-called "non-preferred senior debt instruments", such as the Non-Preferred Senior Eligible Notes); and (vi) the rest of bail-inable liabilities in accordance with the hierarchy of claims in bankruptcy proceedings, including the ranking provided for deposits in § 131 BaSAG, to the extent required.

Furthermore, where the Issuer meets the conditions for resolution and the resolution authority decides to apply a resolution tool to the Issuer, the resolution authority shall exercise the write down or conversion power in relation to relevant capital instruments (i.e. CET 1, AT 1 and Tier 2 instruments) and certain eligible liabilities (such as the Non-Preferred Senior Eligible Notes) before applying any resolution tool (other than the bail-in tool).

If the power of write-down or conversion of relevant capital instruments and eligible liabilities or bail-in tool is applied to the Issuer, the principal amount of the Non-Preferred Senior Eligible Notes may be fully or partially written down or converted into instruments of ownership, although claims of other creditors of the Issuer might not be affected. For the avoidance of doubt, the aforesaid applies also to Non-Preferred Senior Eligible Notes issued as green bonds, sustainability bonds or social bonds.

In case of an insolvency of the Issuer, certain deposits and certain other claims and potentially also senior unsecured claims have a higher ranking than claims resulting from the Non-Preferred Senior Eligible Notes.

According to § 131 BaSAG, in bankruptcy proceedings opened over the Issuer's assets, the following insolvency hierarchy applies to deposits and senior unsecured claims:

- (a) (i) covered deposits; and (ii) deposit guarantee schemes subrogating to the rights and obligations of covered depositors in insolvency;
- (b) (i) that part of eligible deposits from natural persons and micro, small and medium-sized enterprises which exceeds the covered deposits; and (ii) deposits that would be eligible deposits from natural persons, micro, small and medium-sized enterprises if they are not made through branches (located outside the EU) of institutions established within the EU;
- (c) the liquidity reserve within a liquidity association pursuant to § 27a BWG and within a credit institution association pursuant to § 30a BWG, in each case, to the extent required by § 27a BWG;
- (d) ordinary unsecured claims; and
- (e) unsecured claims resulting from debt instruments within the meaning of § 131(3) BaSAG (so-called "non-preferred senior debt instruments", such as the Non-Preferred Senior Eligible Notes), i.e. debt instruments that meet the following conditions: (i) the original contractual maturity of the debt instruments is of at least one year; (ii) the debt instruments contain no embedded derivatives and are not derivatives themselves; and (iii) the relevant contractual documentation and, where applicable, the prospectus related to the issuance explicitly refer to the lower ranking under § 131(3) BaSAG.

Therefore, in case of bankruptcy proceedings and any comparable proceedings (such as resolution proceedings) opened in relation to the Issuer, claims resulting from the Non-Preferred Senior Eligible Notes are junior to the claims listed in points (a) to (d). For this reason, any payments on claims resulting from the Non-Preferred Senior Eligible Notes would only be made, if and to the extent any senior ranking claims have been fully satisfied.

Holders of the Non-Preferred Senior Eligible Notes are exposed to the risk that the Issuer may issue further (senior) debt instruments or incur further (senior) liabilities.

There are no restrictions (contractual or otherwise) on the amount of ordinary unsecured or subordinated debt or other liabilities that the Issuer may (or may have to) issue, borrow and/or incur, ranking senior to the Non-Preferred Senior Eligible Notes.

Any issue of such instruments and/or any incurring such liabilities may reduce the amount recoverable by Holders of the Non-Preferred Senior Eligible Notes upon the Issuer's insolvency. For the avoidance of doubt, the aforesaid applies also to Non-Preferred Senior Eligible Notes issued as green bonds, sustainability bonds or social bonds. A green bond, sustainability bond or social bond classification does not affect the status of the Non-Preferred Senior Eligible Notes in terms of subordination and regulatory classification as eligible liabilities instruments.

The Non-Preferred Senior Eligible Notes may be redeemed at the option of the Holders (if at all) only subject to the prior permission of the Resolution Authority.

If such right is foreseen in the relevant Final Terms, Holders of the Non-Preferred Senior Eligible Notes will have the right to call for the early redemption of their Non-Preferred Senior Eligible Notes, provided however, only subject to certain conditions, in particular the prior permission of the Resolution Authority.

Therefore, Holders of the Non-Preferred Senior Eligible Notes may be required to bear the financial risks of an investment in the Non-Preferred Senior Eligible Notes until their final maturity.

The Non-Preferred Senior Eligible Notes may be redeemed at any time for reasons of taxation or regulatory reasons.

If such right is foreseen in the relevant Final Terms, the Issuer may at its sole discretion, early redeem the Non-Preferred Senior Eligible Notes before their stated maturity, at any time for reasons of taxation.

In any case, the Issuer may at its sole discretion, early redeem the Non-Preferred Senior Eligible Notes before their stated maturity, at any time for regulatory reasons.

Therefore, Holders are exposed to the risk that the Non-Preferred Senior Eligible Notes will be early redeemed and thus, investors will not be able to hold the Non-Preferred Senior Eligible Notes until the stated maturity and accordingly, might not achieve the expected yield.

The rights of the Issuer to early redeem or repurchase the Non-Preferred Senior Eligible Notes are subject to the prior permission of the Resolution Authority.

The Issuer may, at its sole discretion, early redeem the Non-Preferred Senior Eligible Notes at any time either for reasons of taxation (if such right is foreseen in the relevant Final Terms) or regulatory reasons. In addition, if such right is foreseen in the relevant Final Terms, the Issuer may at its sole discretion redeem the Non-Preferred Senior Eligible Notes before their stated maturity on a specified call redemption date.

Any early redemption and any repurchase of the Non-Preferred Senior Eligible Notes are subject to the prior permission of the Resolution Authority. Under the CRR, the Resolution Authority may only permit institutions to early redeem or repurchase eligible liabilities instruments (such as the Non-Preferred Senior Eligible Notes) if certain conditions are met. These conditions, as well as a number of other technical rules and standards relating to regulatory capital requirements applicable to the Issuer, should be taken into account by the Resolution Authority in its assessment of whether or not to permit any early redemption or repurchase. It is uncertain how the Resolution Authority will apply these criteria in practice and such rules and standards may change during the term of the Non-Preferred Senior Eligible Notes. It is therefore not possible to assess whether, and if so, on what terms, the Resolution Authority will grant its prior permission for any early redemption or repurchase of the Non-Preferred Senior Eligible Notes.

Furthermore, even if the Issuer would be granted the prior permission of the Resolution Authority, any decision by the Issuer as to whether it will early redeem the Non-Preferred Senior Eligible Notes will be made at the sole discretion of the Issuer with regard to external factors (such as the economic and market impact of exercising an early redemption right, regulatory capital requirements and prevailing market conditions). There is the risk that the Issuer will not exercise any early redemption right in relation to the Non-Preferred Senior Eligible Notes, and the Holders therefore may stay invested until the maturity date of the Non-Preferred Senior Eligible Notes.

The Non-Preferred Senior Eligible Notes do not give the right to accelerate future payments, and also may not be subject to set-off or any guarantee.

The Terms and Conditions of the Non-Preferred Senior Eligible Notes do not provide for any events of default and the Holders of the Non-Preferred Senior Eligible Notes do not have the right to accelerate any future scheduled payment of interest or principal. For the avoidance of doubt, the aforesaid applies also to Holders of Non-Preferred Senior Eligible Notes issued as green bonds, sustainability bonds or social bonds.

Furthermore, the Non-Preferred Senior Eligible Notes are not subject to any set off or netting arrangements that would undermine their capacity to absorb losses in resolution and are neither secured nor subject to a guarantee or any other arrangement that enhances the seniority of the claims under the Non-Preferred Senior Eligible Notes.

Risk factors regarding tax and legal matters

The Notes are governed by Austrian law, and changes in applicable laws, regulations or regulatory policies may have an adverse effect on the Issuer, the Notes and the Holders.

The Terms and Conditions of any Series of Notes will be governed by Austrian law. The governing law may not be the law of the Holder's own home jurisdiction and the law applicable to the Notes may not provide the Holder with similar protection as their own law. Furthermore, the impact of any possible judicial decision or change to Austrian law, or administrative practice after the date of this Prospectus is unclear.

Changes in tax law may negatively affect the Holders.

Tax law and practice is subject to change, possibly with retrospective effect and this could adversely affect the market price of the Notes. Any such change may cause the tax treatment of the relevant Notes to change from what the purchaser understood the position to be at the time of purchase.

An Austrian court could appoint a trustee for the Notes to exercise the rights and represent the interests of Holders on their behalf in which case the ability of Holders to pursue their rights under the Notes individually may be limited.

Pursuant to the Austrian Notes Trustee Act (*Kuratorenengesetz*) and the Austrian Notes Trustee Supplementation Act (*Kuratorenenergänzungsgesetz*), a trustee (*Kurator*) could be appointed by an Austrian court upon the request of any interested party (e.g. a Holder) or upon the initiative of a competent court, for the purposes of representing the common interests of the Holders in matters concerning their collective rights to the extent the rights are endangered due to a lack of joint representation. In particular, this may occur if insolvency proceedings are initiated against the Issuer, in connection with any amendments to the Terms and Conditions of the Notes or changes relating to the Issuer, or under other similar circumstances. If a trustee is appointed, it will exercise the collective rights and represent the interests of the Holders and will be entitled to make statements on their behalf which shall be binding on all Holders. Where a trustee represents the interests of and exercises the rights of Holders, this may conflict with or otherwise adversely affect the interests of individual or all Holders.

Legal investment considerations may restrict certain investments.

Due to certain laws and regulations in relation to investments (e.g. securities-specific or regulatory provisions) or due to the scrutiny or regulation by certain authorities, an investment in the Notes may be restricted for certain potential investors. Furthermore, investors might not be able to claim (or only to claim partial) indemnification for damage that has been caused to them due to certain exclusions or restrictions of the Issuer's or other parties' (e.g. the Calculation Agent, the Paying Agent, etc) liability for negligent acts or omissions in connection with the Notes (or calculations thereof).

Risk factors regarding the pricing of, costs associated with, market in and the settlement of the Notes

Holders are exposed to the risk of partial or total inability of the Issuer to make interest and/or redemption payments under the Notes.

Holders are subject to the risk of a partial or total inability of the Issuer to make interest and/or redemption payments that the Issuer is obliged to make under the Notes. Any deterioration of the creditworthiness of the Issuer would increase the risk of loss. A materialisation of the credit risk may result in partial or total inability of the Issuer to make interest and/or redemption payments under the Notes.

Holders assume the risk that the credit spread of the Issuer widens resulting in a decrease in the market price of the Notes.

A credit spread is the margin payable by the Issuer to the Holder of an instrument as a premium for the assumed credit risk. Credit spreads are offered and sold as premiums on current risk-free interest rates or as discounts on the price.

Factors influencing the credit spread include, among other things, the creditworthiness and credit rating of the Issuer, probability of default, recovery rate, remaining term to maturity of the Notes and obligations under any

collateralisation or guarantee and declarations as to any preferred payment or subordination. The liquidity situation of the market, the general level of interest rates, overall economic developments, and the currency, in which the relevant obligation is denominated may also have a negative effect.

Holders are exposed to the risk that the credit spread of the Issuer widens resulting in a decrease in the market price of the Notes.

The Holder may be exposed to the risk that due to future money depreciation (inflation), the real yield of an investment may be reduced.

Inflation risk describes the possibility that the market price of assets such as the Notes or income therefrom will decrease as higher (expected) inflation reduces the purchasing power of a currency. Higher (expected) inflation causes the rate of return to decrease in value. If the inflation rate exceeds the interest paid on any Notes (if any) the yield on such Notes will become negative.

Holders are exposed to the risk of an unfavourable development of market prices of their Notes which materialises if the Holder sells the Notes prior to the final maturity of such Notes.

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Instrument. The Holder is therefore exposed to the risk of an unfavourable development of market prices of its Notes which materialises if the Holder sells the Notes prior to the final maturity of such Notes. Furthermore, Notes may be issued at a price higher than the redemption amount. This will increase the impact that unfavourable market price developments may have on the Notes. If the Holder decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

A liquid secondary market for the Notes may not develop or, if it develops, it may not continue. In an illiquid market, a Holder may not be able to sell his Notes at fair market prices.

Application may be made to admit the Programme and/or any Series of Notes to the Market, which appears on the list of regulated markets issued by the European Commission. In addition, the Programme provides that Series of Notes may not be listed at all.

Regardless of whether Series of Notes are listed or not, a liquid secondary market for such series of Notes may not develop or, if it develops, it may not continue. The fact that a Series of Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Series of Notes. If Series of Notes are not listed on the Vienna Stock Exchange, pricing information for such Series of Notes may, however, be more difficult to obtain, which may adversely affect the liquidity of the Notes. In an illiquid market, a Holder might not be able to sell its Notes at any time at fair market prices or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. Generally, these types of Notes would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a material adverse effect on the market price of Notes. The possibility to sell the Notes might additionally be restricted by country-specific reasons.

There is a risk that listing or inclusion of the Notes will not be accepted or trading in the Notes will be suspended, interrupted or terminated, which may have an adverse effect on the market price of such Notes.

If a Series of Notes is listed on the Market or included in trading on the Vienna MTF, the listing or trading of such Notes may – depending on the rules applicable to the Vienna Stock Exchange – not be accepted or be suspended or interrupted by the Vienna Stock Exchange or a competent regulatory authority upon the occurrence of a number of reasons, including violation of price limits, breach of statutory provisions, occurrence of operational problems of the Vienna Stock Exchange and/or generally if deemed required in order to secure a functioning market or to safeguard the interests of Holders. Furthermore, trading in the Notes may be terminated, either upon decision of the Vienna Stock Exchange, a regulatory authority or upon application by the Issuer. The Issuer has no influence on trading suspension or interruptions (other than where trading in the Notes is terminated upon the Issuer's decision) and Holders in any event must bear the risks connected therewith. In particular, Holders may not be able to sell their Notes where trading is suspended, interrupted or terminated, and the stock exchange quotations of such Notes may not adequately reflect the market price of such Notes. Finally, even if trading in Notes is suspended, interrupted or terminated, such measures may neither be sufficient nor adequate nor in time to prevent price disruptions or to safeguard the Holders' interests;

for example, where trading in Notes is suspended after price-sensitive information relating to such Notes has been published, the market price of such Notes may already have been adversely affected. All these risks would, if they materialise, have a material adverse effect on the Holders.

Incidental costs related in particular to the purchase and sale of the Notes may have a significant impact on the profit potential of the Notes.

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) may be incurred in addition to the purchase or sale price of the Notes. These incidental costs may significantly reduce or eliminate any profit from holding the Notes. Credit institutions may charge commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value. To the extent that additional - domestic or foreign - parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Holders may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of Notes (direct costs), any follow-up costs (such as custody fees) have to be taken into account.

The purchase price applicable to the Notes on a given day will often include a bid-ask spread so that the purchase price will be higher than the price at which Holders are able to sell any such Notes on that given day.

Holders have to rely on the functionality of the clearing system and there is the risk that due to the use of the clearing system any credits on the Holders' account will not be processed at all, will not be processed within the time expected by the Holder or will be delayed.

The Notes are purchased and sold through the OeKB CSD. The Issuer does not assume any responsibility for to whether the Notes are actually transferred to the securities portfolio of the relevant Holder. Holders have to rely on the functionality of the clearing system. There is the risk that due to the use of the clearing system any credits on the Holders' account will not be processed at all, will not be processed within the time expected by the Holder or will be delayed. Thus, the Holder may suffer economic disadvantages.

Risk factor regarding currencies

Exchange rate risks may occur, if a Holder's financial activities are denominated in a currency or currency unit other than the Specified Currency in which the Issuer will make principal and interest payments. Furthermore, government and monetary authorities may impose exchange controls that could adversely affect an applicable exchange rate.

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if a Holder's financial activities are denominated principally in a currency or currency unit ("**Holder's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Holder's Currency) and the risk that authorities with jurisdiction over the Holder's Currency may impose or modify exchange controls. An appreciation in the value of the Holder's Currency relative to the Specified Currency would decrease (i) the Holder's Currency-equivalent yield on the Notes, (ii) the Holder's Currency-equivalent value of the principal payable on the Notes, and (iii) the Holder's Currency-equivalent market price of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Holders may receive less interest or principal than expected, or no interest or principal.

Risk factor regarding conflicts of interest

The Issuer may be exposed to conflicts of interest which might adversely affect the Holders.

The Issuer may from time to time act in other capacities with regard to the Notes, such as calculation agent, which allows the Issuer to make calculations in respect of the Notes (e.g. the amount of interest to be paid) which are binding for the Holders. This fact could generate conflicts of interest and may affect the market price of the Notes.

Risk factors relating to Notes issued as green bonds, sustainability bonds or social bonds

Any failure in the use of the proceeds for ESG Projects, in the implementation of ESG Projects or a change in the (re)allocation of the proceeds does not give the Holders rights or claims.

The relevant Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer's

intention to apply an amount equal to the proceeds from an offer of those Notes specifically for projects and activities that promote climate-friendly and other environmental purposes, sustainability or social purposes (Environmental, Social and Governance ("ESG")) ("ESG Projects").

The relevant project(s) or use(s) the subject of, or related to, any ESG Projects might not be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds might not be totally or partially disbursed for such ESG Projects. Such ESG Projects might not be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Further, the proceeds could be initially allocated by the Issuer to wrong assets or the allocation of the proceeds to specific ESG Projects could be changed as well as the assets initially qualified as ESG assets could be disqualified as such during the term of the Notes. In addition, the maturity of ESG assets might not match the minimum duration of the Notes so that the proceeds would have to be reallocated and replacement assets be required. Such reallocation could fail due to the lack of new ESG assets which comply with the Framework (as defined below) of the Issuer so that the amount equivalent to the proceeds of the issue of the Notes will not be used as stated in the relevant Final Terms.

Furthermore, the proceeds from an offer of Notes issued as green bonds, sustainability bonds or social bonds could not only be used for ESG Projects but also to cover all potential losses in the balance sheet of the Issuer regardless of whether (i) the Notes are labelled "ESG" and (ii) losses stem from ESG Projects or other assets of the Issuer.

Any such event or failure by the Issuer (a) will not (i) constitute an event of default under the Notes, (ii) lead to an obligation for the Issuer to redeem the Notes, (iii) be a factor whether or not an optional redemption right should be exercised and (iv) have a consequence on the Notes' permanence and loss absorbency and/or (b) will not give the Holders (i) the right to otherwise early terminate the Notes, (ii) the right to accelerate payments under the Notes and (iii) any claim against the Issuer.

Any aforesaid event or failure may have material adverse consequences for certain investors with mandates to invest in securities to be used for a particular purpose. Furthermore, the Holders may be required to bear the financial risks of an investment in such Notes until their final maturity or may be required to sell the Notes due to their portfolio mandates at an unfavourable market price.

Due to the still pending legislative initiatives, Notes issued as green bonds, sustainability bonds or social bonds or such other equivalent label might not satisfy any existing or future legislative or regulatory requirements or any present or future investor expectations or requirements.

Currently, there is no final definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green", "sustainability", "social" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green" or "sustainability" or "social" or such other equivalent label nor such a final definition or consensus might develop over time. While first steps have been taken in defining the term "sustainable" within the EU by the Regulation (EU) 2020/852 ("**Taxonomy Regulation**") and the Proposal for a Corporate Sustainability Reporting Directive, it is an area which has been, and continues to be, the subject of many and wide-ranging voluntary and regulatory initiatives to develop rules, guidelines, standards, taxonomies and objectives. Even if such voluntary or regulatory initiatives should arrive at a definition of "green", "sustainability", "social" (or any equivalent label) they are not necessarily meant to apply to the Notes nor will the Issuer necessarily seek compliance of the Notes with all or some of such rules, guidelines, standards, taxonomies, principles or objectives (including, *inter alia*, the Taxonomy Regulation, the Proposal for a Corporate Sustainability Reporting Directive, the EU Taxonomy Climate Delegated Act, the EU Green Bond Standard, the Green Bond Principles, the Social Bond Principles, the Sustainability Bond Guidelines). Also, the criteria for what constitutes an ESG Project may be changed from time to time.

The intended use of proceeds of the Notes by the Issuer for any ESG Projects in accordance with the Framework might not satisfy, either in whole or in part, (i) any existing or future legislative or regulatory requirements, or (ii) any present or future investor expectations or requirements with respect to investment criteria or guidelines with which any investor or its investments are required to comply under its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any ESG Projects. In addition, the reporting in relation to the use of proceeds under the Framework might not meet investor needs or expectations.

Due to the still pending legislative initiatives, the Notes issued as green bonds, sustainability bonds or social bonds or such other equivalent label might not satisfy, either in whole or in part, (i) any existing or future

legislative or regulatory requirements, or (ii) any present or future investor expectations regarding "green", "sustainability", "social" or other equivalently-labelled performance objectives or requirements with respect to investment criteria or guidelines with which any investor or its investments are required to comply under its own by-laws or other governing rules or investment portfolio mandates.

This may have a material adverse effect on the market price of such Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

There may be risks relating to ESG ratings and/or opinions in connection with the Framework.

The suitability or reliability for any purpose whatsoever of any opinion (eg a second party opinion) of any third party (whether or not solicited by the Issuer) which may be made available in connection with the Framework and/or the issue of any Notes and in particular with any ESG Projects to fulfil any environmental and/or other criteria remains uncertain. Any such opinion may not address risks that may affect the market price of Notes or any ESG Projects to which the Issuer may assign the proceeds of the Notes. Any failure by the Issuer to obtain any opinion or any subsequent withdrawal of any such opinion will not constitute an event of default under the Notes and will not give the Holders any acceleration or redemption right or other claims against the Issuer.

Further, any withdrawal of any such opinion or any such opinion attesting that the Issuer is not complying in whole or in part with any matters which such opinion is opining may have a material adverse effect on the market price of such Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

Separately, the Issuer's exposure to ESG risks and the related management arrangements established to mitigate those risks may be assessed by ESG rating agencies in the future, among others, through ESG ratings. ESG ratings may vary amongst ESG rating agencies as the methodologies used to determine ESG ratings may differ. ESG ratings are not necessarily indicative of the Issuer's current or future operating or financial performance, or any future ability to service the Notes and are only current as of the dates on which they were initially issued. Any withdrawal of an ESG rating may have a material adverse effect on Notes which are intended to finance ESG Projects.

As of the date of this Prospectus, neither the issuance of ESG ratings or the issuance of second party opinions on frameworks or note issuances are subject to comprehensive regulation and so far, no generally accepted industry standards have emerged. For this reason, any such ESG rating or second party opinion might not provide a fair and comprehensive summary of the relevant underlying facts or any such ESG rating or opinion might not address all relevant risks.

The listing or admission to trading of Notes issued as green bonds, sustainability bonds or social bonds on a dedicated "green", "environmental", "sustainability", "social" and/or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated) might not satisfy the investors' expectations or requirements.

In the event that any Notes are listed or admitted to trading on any dedicated "green", "environmental", "sustainability", "social" and/or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), such listing or admission might not satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental impact of any projects or uses, the subject of or related to, any ESG Projects. Furthermore, the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Any such listing or admission to trading might not be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading might not be maintained during the life of the Notes.

Any such Notes no longer being listed or admitted to trading on any dedicated "green", "environmental", "sustainability", "social" and/or other equivalently-labelled segment of any stock exchange or securities market as aforesaid may have a material adverse effect on the market price of such Notes and also potentially the market price of any other Notes which are intended to finance ESG Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

The maximum aggregate principal amount of the Notes at any one time outstanding under the Programme is EUR 2,000,000,000.

Further Notes may be issued as part of existing Series.

Subject to any applicable legal or regulatory restrictions and requirements of relevant central banks, monetary or other authorities, Notes may be issued in euro or any other currencies as may be agreed between the Issuer and the relevant dealer(s).

Covered Bank Bonds⁷

Cover Pool

Covered Bank Bonds are issued under the rules of the FBSchVG and are covered in accordance with the FBSchVG. Appropriate assets to cover Covered Bank Bonds include: (i) claims and securities provided that they qualify for an investment of assets of minors pursuant to § 217 of the Austrian General Civil Code (*Allgemeines Bürgerliches Gesetzbuch – ABGB*) (e.g. mortgage and public-sector covered bank bonds); (ii) claims and securities provided that a mortgage in relation to such claims and securities has been registered with a public register (*öffentliches Buch*); (iii) claims, which exist *vis-a-vis* a domestic corporation under public law, a member state of the EEA other than Austria or Switzerland as well as *vis-a-vis* their regional governments or local regional corporations (*örtliche Gebietskörperschaften*), for which the competent authorities pursuant to Article 43(1)(b)(5) of Directive 2000/12/EC, as amended have determined a weighting of a maximum of 20 per cent. or if one of the above-mentioned corporations guarantees payment; (iv) securities, which have been issued by one of the above mentioned corporations or if one these guarantees payment. The Issuer keeps one cover pool of cover assets for public Covered Bank Bonds (*Deckungsstock für öffentlich fundierte Bankschuldverschreibungen*) which contains basically values listed in items (iii) and (iv) above pursuant to § 1(5)(3) and (4) FBSchVG. Additionally, appropriate assets to cover Covered Bank Bonds include hedging (derivative) transactions, which serve to reduce future interest, currency or debtor risks of cover assets in relation to the issued Covered Bank Bonds – also in case of insolvency of the issuing credit institution. The contracting party to the hedging (derivative) agreement is treated *pari passu* with the creditors of the Covered Bank Bonds with regard to the assets registered in the cover register (*Deckungsregister*) as to the obligations of the credit institution arising out of the hedging transaction. Claims that constitute the cover pool can be: (i) claims generated by the business activities of the Issuer itself as well as (ii) claims of other credit institutions that were generated through the latter's business activities and subsequently held in trust by the Issuer and registered in the cover pool for the Covered Bank Bonds. The FBSchVG applies to bearer notes and notes which can be transferred by endorsement. Holders of such notes are entitled to be preferentially satisfied by the cover assets forming a separate pool (*Sondermasse*) of the credit institution's assets which are under the control of a government commissioner (*Regierungskommissär*). Set-off by the debtor of qualified assets is not permitted, with the exception of a set-off permissible according to general civil law with regard to hedging (derivative) transactions entered into the cover pool.

⁵ To be issued until the PfandBG enters into force on 8 July 2022.

⁶ To be issued from the entry into force of the PfandBG on 8 July 2022.

⁷ This section is relevant for Covered Bank Bonds until the PfandBG enters into force on 8 July 2022.

Extended Maturity

The term of Covered Bank Bonds may be extended to the Extended Maturity Date (i.e. at least twelve months after the Maturity Date) if the Issuer notifies the Holder that the Issuer is unable to pay the outstanding aggregate principal amount of the Covered Bank Bonds on the Maturity Date. In such instance, the payment of the outstanding aggregate principal amount shall be postponed and, notwithstanding the statutory regime on acceleration and liquidation of the cover pool of cover assets, shall become due and payable on the Extended Maturity Date, together with accrued interest, if any, to, but excluding, the Extended Maturity Date. In such case, interest will continue to accrue on the outstanding aggregate principal amount of the Covered Bank Bonds during the period from, and including, the (original) Maturity Date to, but excluding, the Extended Maturity Date at the relevant rate of interest set out in the relevant Final Terms and will be payable by the Issuer on each Interest Payment Date from, and excluding, the (original) Maturity Date to, and including, the Extended Maturity Date (each as set out in the relevant Final Terms) in accordance with the relevant Final Terms.

Covered Bonds⁸

This section on Covered Bonds contains a brief summary with regard to single aspects of the PfandBG which are of significance in connection with an issue of Covered Bonds. This summary does not purport to exhaustively describe all possible aspects in relation to the Covered Bonds and the PfandBG which may be relevant for an issue of the Covered Bonds and further disclosure may be included in a supplement to this Prospectus. This summary does not deal with specific situations which may be of relevance for certain prospective Holders of the Covered Bonds. The following comments are rather of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal advice. This summary is based on the provisions of the PfandBG as of the date of this Prospectus, which may be amended from time to time. Prospective Holders of the Covered Bonds should consult their legal advisors as to an investment in Covered Bonds.

Under the Issuer's covered bond programme public Covered Bonds (öffentlich gedeckte Schuldverschreibungen) may be issued which are Austrian law debt instruments, the quality and standards of which are regulated by the PfandBG. The investors' claims under the Covered Bonds are secured at all times by a cover pool of certain eligible assets (Deckungsstock).

Possible effects of the Issuer's insolvency

In the event of the Issuer's insolvency or resolution, payment obligations of the Issuer under the Covered Bonds shall not be subject to automatic acceleration and prepayment (so-called "bankruptcy remoteness"). The Holders shall have a priority claim in relation to the principal amount and any accrued and future interest from the cover assets which, in the event of the opening of insolvency proceedings, form a special estate (*Sondermasse*) for the satisfaction of the claims of the Holders of the Covered Bonds. Until such priority claim is satisfied, all covered assets shall be protected from third party claims and shall not form part of the Issuer's special estate. In addition, in the event of the Issuer's insolvency and in the event that the aforementioned priority claim cannot be satisfied in full, the Holders will have an insolvency claim against the Issuer.

Prospective claims (*betagte Forderungen*) of Holders under the Covered Bonds (i.e. existing claims which will only become due on a certain future date) shall not be deemed to be due in any insolvency proceedings relating to the Issuer's assets.

The bankruptcy court shall appoint a trustee (*Kurator*) (§ 95a of the Austrian Insolvency Code) at the opening of the insolvency proceedings to assert the above-mentioned priority claims and any insolvency claims.

Role of the special administrator and maturity extension¶

The bankruptcy court shall without undue delay appoint a special administrator to administer the special estate (§ 86 of the Austrian Insolvency Code). The FMA shall be heard prior to the appointment of the administrator. The rights and duties of the internal or external trustee (*Treuhänder*) pursuant to the PfandBG remain unaffected.

The special administrator shall satisfy due claims of the Holders from the special estate and shall take the necessary administrative measures for this purpose with effect for the special estate, for example by collecting due mortgage claims, selling individual cover assets or by bridge financing.

⁸ This section is relevant for Covered Bonds to be issued from the entry into force of the PfandBG on 8 July 2022.

Furthermore, in the event of the Issuer's insolvency, the special administrator may trigger a maturity extension pursuant to § 22 PfandBG, provided that, at the time of the maturity extension, the special administrator is convinced that the liabilities under the Covered Bonds can be serviced in full by the Issuer on the extended maturity date (objective trigger event). The maturity of Covered Bonds may be postponed once by up to 12 months upon the occurrence of the objective trigger event. The maturity extension is not at the Issuer's discretion.

Any maturity extension shall not affect the ranking of the Holders of the Covered Bonds and not invert the sequencing of the covered bond programme's original maturity schedule. In the event of a maturity extension, the maturity of other Covered Bonds within a covered bond programme shall be deemed to be deferred in each case for so long as it is necessary to maintain the sequence of the original maturity schedule.

Role of the FMA

As competent authority, the FMA supervises the issuance of Covered Bonds and compliance with the provisions of the PfandBG, without prejudice to the duties assigned to it under other laws and takes into account the national economic interest in a functioning capital market. Among other things, the FMA has the authority to grant or refuse approval for covered bond programmes pursuant to § 30 PfandBG and to require the Issuer to submit the conditions for possible maturity extensions pursuant to § 22 PfandBG.

In the course of the prospectus approval procedure, the FMA does not examine whether an approval for covered bond programmes pursuant to § 30 PfandBG exists.

Note on quarterly publication

The Issuer intends to provide the Holders with detailed information pursuant to § 23 (2) PfandBG on a quarterly basis on its website under "www.kommunalkredit.at".

Use of Proceeds

Except as disclosed otherwise in the relevant Final Terms, the net proceeds from each issue will be used for general financing purposes of the Issuer.

Green Bonds, Sustainability Bonds and Social Bonds

The Issuer will provide more details with regard to its green bond, sustainability bond or social bond issues (i) in its framework which will be disclosed on the website of the Issuer "www.kommunalkredit.at" once the framework is finalised (the "**Framework**") and (ii) in the relevant Final Terms under "Use of Proceeds". Such Framework may be updated from time to time. The Framework will not, nor shall be deemed to, be incorporated into and/or form part of this Prospectus.

None of the Issuer, the Arranger, any dealer, any of their affiliates or any other person mentioned in this Prospectus makes any representation as to the suitability of any Notes to fulfil environmental criteria required or expected by any prospective investors as regards any investment criteria or guidelines with which such prospective investor or its investments are required to comply. Neither the Issuer, the Arranger nor any dealer has undertaken, nor is responsible for, any assessment of such framework, any verification of whether ESG Projects meet the criteria set out in such framework or the monitoring of the use of proceeds.

Payment of principal and interest of green bonds, sustainability bonds or social bonds will be made from the general funds of the Issuer and will not be directly linked to the performance of any ESG Projects.

In relation to issuances of green bonds, sustainability bonds or social bonds, the Issuer will mandate a recognised second party opinion ("**SPO**") provider which is a provider of ESG research and analysis. This SPO will also cover issuances of green bonds, sustainability bonds or social bonds of the Issuer. The SPO provider will evaluate the robustness and credibility of the Framework and intended use of proceeds in terms of its alignment with relevant industry standards and will provide its SPO thereon (as it will be disclosed on the Issuer's website "www.kommunalkredit.at"). Neither this SPO nor any other SPO will be intended to address any credit, market or other aspects of an investment in any Notes, including without limitation market price, marketability, investor preference or suitability of any security. Such SPO will be a statement of opinion, not a statement of fact. For the avoidance of doubt, any such SPO will not, nor shall be deemed to, be incorporated by reference into and/or form part of this Prospectus. Any such SPO will not, nor should be deemed to, be a recommendation by the Issuer, the Arranger, any dealer or any other person to buy, sell or hold any such Notes. Any such SPO will only be current as of the date that SPO will be initially issued and may be updated, suspended or withdrawn by the relevant provider(s) at any time. Prospective investors must determine for themselves the relevance of any such SPO and/or the information contained therein and/or the provider of

such SPO for the purpose of any investment in such Notes. Currently, the SPO providers are not subject to any specific regulatory or other regime or oversight. Holders might not have any recourse against such provider(s). None of the Issuer, the Arranger, any dealer, any of their affiliates or any other person mentioned in this Prospectus makes any representation as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any SPO provider (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes issued as green bonds, sustainability bonds or social bonds and in particular with any ESG assets to fulfil any environmental and/or other criteria.

The Ordinary Senior Eligible Notes, the Non-Preferred Senior Eligible Notes and the Subordinated Notes issued as green bonds, sustainability bonds or social bonds are fully subject to the application of the CRR eligibility criteria and BRRD requirements for own funds and eligible liabilities instruments and thus carry the related risks of loss-absorption. Any failure by the Issuer with regards to the use of proceeds from such Notes or the expected performance of the eligible ESG assets will not jeopardize the qualification of (i) the Ordinary Senior Eligible Notes and the Non-Preferred Senior Eligible Notes as eligible liabilities instruments and (ii) the Subordinated Notes as Tier 2 instruments.

Authorisation

Every year, the Issuer's Supervisory Board authorises the issue of Notes up to a defined aggregate principal amount. At the time of the issue of new Notes, the Notes are covered by this aggregate principal amount.

[In the case of floating rate Notes, the following applies:

(2) *Rate of Interest.* The rate of interest (the "**Rate of Interest**") for each Interest Period shall be the offered quotation (expressed as a percentage rate *per annum*) for deposits in the Specified Currency for that Interest Period which appears on the Screen Page as of 11:00 a.m. (Brussels time) on the Interest Determination Date (as defined below) (*insert number*-month EURIBOR) [, multiplied by *insert factor*] [[plus] [minus] the Margin (as defined below)], all as determined by the Calculation Agent. The Rate of Interest is in any case higher or equal to Zero.

"**Interest Determination Date**" means the [first] [second] [TARGET] *insert relevant financial centre(s)* Business Day prior to the [commencement] [end] of the relevant Interest Period. "**[TARGET] [*insert relevant financial center(s)*] Business Day**" means a day (other than a Saturday or Sunday) on which [all relevant parts of the Trans-European Automated Real-time Gross Settlement Express Transfer System 2 ("**TARGET**") are open] [commercial banks are open for business (including dealings in foreign exchange and foreign currency) in *insert relevant financial centre(s)*] [to effect payments].

"**Margin**" means [●] per cent. *per annum.*

"**Screen Page**" means Reuters screen page [EURIBOR01] *insert screen page* or any successor page.

If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be determined on the basis of the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such offered quotations [, multiplied by *insert factor*] [[plus] [minus] the Margin], all as determined by the Calculation Agent.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be determined on the basis of the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such rates were offered, as at 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for the relevant Interest Period by leading banks in the interbank market of the Euro Zone [, multiplied by *insert factor*] [[plus] [minus] the Margin] or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for the relevant Interest Period, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for the relevant Interest Period, at which, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Calculation Agent and the Issuer suitable for such purpose) inform(s) the Calculation Agent it is or they are quoting to leading banks in the interbank market of the Euro Zone (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) [, multiplied by *insert factor*] [[plus] [minus] the Margin]. If the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined on the basis of the offered quotation or the arithmetic mean of the offered quotations on the Screen Page, as described above, on the last day preceding the Interest Determination Date on which such quotations were offered [, multiplied by *insert factor*] [[plus] [minus] the Margin (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period)].

"**Euro-Zone**" means the region comprised of those member states of the European Union that have adopted, or will have adopted from time to time, the single currency in accordance with the Treaty establishing the European Community (signed in Rome on 25 March 1957), as amended by the Treaty on European Union (signed in Maastricht on 7 February 1992), the Amsterdam Treaty of 2 October 1997 and the Treaty of Lisbon of 13 December 2007, as further amended from time to time.

In the event of the Issuer determining the occurrence of a Benchmark Event (as defined below), (i) the Issuer shall use reasonable endeavours to appoint an Independent Advisor (as defined below) to determine in the Independent Advisor's reasonable discretion (acting in good faith and a commercially reasonable manner (the "**Substitution Objective**")) a Substitute Offered Quotation which shall replace the original offered quotation affected by the Benchmark Event; or (ii) if no Independent Advisor is or can be timely appointed by the Issuer or if an Independent Advisor is appointed by the Issuer, but fails to determine a Substitute Offered Quotation, then [the] [Issuer] [●] (in consideration of the Substitution Objective) may determine which (if any) rate has replaced the original offered quotation affected by the Benchmark Event. Any Substitute Offered Quotation shall apply from (and including) the Interest Determination Date determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion, which shall be no earlier than the Interest Determination Date falling on or immediately following the date of the Benchmark Event, with first effect for the Interest Period for which the Rate of Interest is determined on such Interest Determination Date, and notified in writing to the Calculation Agent. The "**Substitute Offered Quotation**" shall be a rate (expressed as a percentage rate *per annum*) which corresponds to an alternative offered quotation (the "**Alternative Offered Quotation**") provided by a third party and meeting any applicable legal requirements for being used for determining the payment obligations under the Notes determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion, as modified by applying the adjustments (e.g. in the form of premiums or discounts), if any, that may be determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion.

Notwithstanding the generality of the foregoing, the Issuer may in particular, but without limitation implement an Official Substitution Concept, an Industry Solution or a Generally Accepted Market Practise.

If the Independent Advisor or [the] [Issuer] [●] (as the case may be) determines a Substitute Offered Quotation, it shall also be entitled to make, in its due discretion, any such procedural determinations relating to the determination of the current Substitute Offered Quotation (e.g. the determination day, the relevant time, the relevant screen page for obtaining the Alternative Offered Quotation and the fallback provisions in the event that the relevant screen page is not available) and to make such adjustments to the definition of "Business Day" in § 4 and the business day convention provisions in § 4 which in accordance with the Generally Accepted Market Practise are necessary or expedient to make the substitution of the offered quotation by the Substitute Offered Quotation operative.

A "**Benchmark Event**" occurs if

- (a) a public statement or publication of information by or on behalf of the regulatory supervisor of the offered quotation administrator is made, stating that said administrator has ceased or will cease to provide the offered quotation permanently or indefinitely, unless there is a successor administrator that will continue to provide the offered quotation; or
- (b) a public statement or publication of information by or on behalf of the offered quotation administrator is made, stating that said administrator has ceased or will cease to provide the offered quotation permanently or indefinitely, unless there is a successor administrator that will continue to provide the offered quotation; or
- (c) public statement by the regulatory supervisor of the offered quotation administrator is made that, in its view, the offered quotation is no longer, or will no longer be, representative of the underlying market it purports to measure and no action to remediate such a situation is taken or expected to be taken as required by the supervisor of the offered quotation administrator; or
- (d) it has become, for any reason, unlawful under any law or regulation applicable to any Paying Agent, the Calculation Agent, the Issuer or any other party to use the offered quotation; or

"**Official Substitution Concept**" means any binding or non-binding statement by any central bank, supervisory authority or supervisory or expert body of the financial sector established under public law or composed of publically appointed members pursuant to which a certain reference rate, subject to certain adjustments (if any), should or could be used to replace the offered quotation or pursuant to which a certain procedure should or could be used in order to determine payment obligations which would otherwise be determined by reference to the offered quotation.

"Industry Solution" means any statement by the International Swaps and Derivatives Association (ISDA), the International Capital Markets Association (ICMA), the Association for Financial Markets in Europe (AFME), the Securities Industry and Financial Markets Association (SIFMA), the SIFMA Asset Management Group (SIFMA AMG), the Loan Markets Association (LMA), the Deutsche Derivate Verband (DDV), the Zertifikate Forum Austria or any other private association of the financial industry pursuant to which a certain reference rate, subject to certain adjustments (if any), should or could be used to replace the offered quotation or pursuant to which a certain procedure should or could be used in order to determine payment obligations which would otherwise be determined by reference to the offered quotation.

"Generally Accepted Market Practise" means the use of a certain reference rate, subject to certain adjustments (if any), as substitute rate for the offered quotation or of provisions, contractual or otherwise, providing for a certain procedure to determine payment obligations which would otherwise have been determined by reference to the offered quotation in a material number of bond issues following the occurrence of a Benchmark Event, or any other generally accepted market practise (taking into account the operational requirements of the Calculation Agent) to replace the offered quotation as reference rate for the determination of payment obligations.

For the purposes of this subparagraph **"Independent Advisor"** means an independent financial institution of international repute or other independent financial advisor in the Euro zone experienced in the international capital markets, in each case appointed by the Issuer at its own expense.

The Independent Advisor or [the] [Issuer] [●] (as the case may be) is entitled, but not obliged, to determine, in its due discretion, a Substitute Offered Quotation pursuant to the provisions of this subparagraph several times in relation to the same Benchmark Event, provided that each later determination is better suitable than the earlier one to realise the Substitution Objective. The provisions of this subparagraph shall also apply mutatis mutandis in the event of a Benchmark Event occurring in relation to any Alternative Offered Quotation previously determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be).

If the Independent Advisor or [the] [Issuer] [●] (as the case may be) has determined a Substitute Offered Quotation following the occurrence of a Benchmark Event, it will cause the occurrence of the Benchmark Event, the Substitute Offered Quotation determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) and any further determinations of the Independent Advisor or [the] [Issuer] [●] (as the case may be) pursuant to this subparagraph associated therewith to be notified to the Calculation Agent in text format (*Textform*, e.g. e-mail or fax) and to the Holders in accordance with § 10 as soon as possible, but in no event later than the fourth Business Day following the determination of the Substitute Offered Quotation and, if required by the rules of the Vienna Stock Exchange on which the Notes are from time to time listed, to the Vienna Stock Exchange as soon as possible, but in no event later than the first day of the Interest Period to which the Substitute Offered Quotation applies for the first time.

If the Issuer is unable to appoint an Independent Advisor or the Independent Advisor appointed by it or the Issuer fails to determine a Substitute Offered Quotation or an Alternative Offered Quotation (as the case may be) in accordance with this § 3 (2) or a Substitute Offered Quotation or an Alternative Offered Quotation (as the case may be) has been determined but is not yet applicable in accordance with the provisions set out above prior to the relevant Interest Determination Date, the original offered quotation applicable to the relevant Interest Determination Date and the corresponding Interest Period shall be the original offered quotation in respect of the last preceding Interest Period (the **"Ultimative Fall-back"**).

If the Ultimative Fall-back applies as described above the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time up and until (but excluding) the respective immediately subsequent Interest Determination Date on giving not less than 15 days' prior notice of redemption, in accordance with § 10 to the Holders (which notice shall be irrevocable), at their Early Redemption Amount (as defined in § 5 (5)), together with interest accrued to (but excluding) the date fixed for redemption.

Interest Payment Dates are subject to adjustment in accordance with the provisions set out in § 4 (4).

[(6)] Amount of Interest. The Calculation Agent will, on or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest and calculate the amount of interest (the "**Interest Amount**") payable on the Notes for the relevant Interest Period. The Interest Amount shall be calculated by applying the relevant (where applicable, commercially rounded to 5 decimal places) Rate of Interest and the Day Count Fraction (as defined below) to the principal amount of the Notes, whereas the resultant figure is rounded upwards or downwards to the smallest sub-unit of the Specified Currency, with 0.5 or more of such sub-units being rounded upwards.

[(7)] Notification of Rate of Interest and Interest Period. The Calculation Agent will cause the Rate of Interest and the relevant Interest Period to be notified to the Issuer and to the Holders in accordance with § 10 and, if required by the rules of the Vienna Stock Exchange on which the Notes are from time to time listed, to the Vienna Stock Exchange, as soon as possible after their determination. The Interest Period so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to the Vienna Stock Exchange on which the Notes are then listed and to the Holders in accordance with § 10.

Further claims by the Holders remain unaffected.

[(5)] Day Count Fraction. "**Day Count Fraction**" means, in respect of the calculation of an amount of interest on any Note for any period of time (the "**Calculation Period**"):

If the Maturity Date [or the Extended Maturity Date] ([each] as defined below) in relation to a Note falls on a day, which is not a Business Day, then the Holder is not entitled to payment prior to the next Business Day at the relevant business place. The Holder shall not be entitled to demand further interests or other payments due to this adjustment.

(5) *References to Principal and Interest.* Reference in these Terms and Conditions to principal in respect of the Notes shall be deemed to include, as applicable: the Final Redemption Amount **[if for the Notes redemption for taxation is applicable or in the case of floating rate Notes or in case of Covered Bank Bonds, whose term shall be extended in case the Issuer does not pay the outstanding aggregate principal amount on the Maturity Date or in case of Covered Bonds which provide for conditions for a maturity extension, the following applies:**, the Early Redemption Amount] **[if the Issuer has the option to early redeem the Notes for other than taxation reasons, the following applies:**, the Call Redemption Amount] and any premium and any other amounts which may be payable under or in respect of the Notes. Reference in these Terms and Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any Additional Amounts which may be payable under § 7.

§ 5 REDEMPTION

(1) *Redemption at Maturity* **[in case of Covered Bank Bonds, whose term shall be extended in case the Issuer does not pay the outstanding aggregate principal amount on the Maturity Date or in case of Covered Bonds which provide for conditions for a maturity extension, the following applies:** or at the Extended Maturity Date]. Unless previously redeemed in whole or in part or repurchased and cancelled, the Notes shall be redeemed at their Final Redemption Amount on **[insert the maturity date]** (the "**Maturity Date**") **[in case of Covered Bank Bonds, whose term shall be extended in case the Issuer does not pay the outstanding aggregate principal amount on the Maturity Date, the following applies:** or, in case the term of the Notes is extended in accordance with the provisions set out in § 5 (1a), on **[insert the extended maturity date]** (the "**Extended Maturity Date**") **[in case of Covered Bonds which provide for conditions for a maturity extension, insert:** or, in case the term of the Notes is extended in accordance with the provisions set out in § 5 (1a), on the day which is determined by the special administrator (§ 86 of the Austrian Insolvency Code) as extended maturity date (the "**Extended Maturity Date**"). The latest possible Extended Maturity Date is **[insert date]**]. The "**Final Redemption Amount**" in respect of each Note shall be the principal amount of the Notes.

[In case of Covered Bank Bonds, whose term shall be extended in case the Issuer does not pay the outstanding aggregate principal amount on the Maturity Date or in case of Covered Bonds which provide for conditions for a maturity extension, the following applies:

[Until the Austrian Covered Bond Act (Pfandbriefgesetz – PfandBG) Federal Law Gazette I No. 199/2021 enters into force on 8 July 2022 the following applies:

(1a) *Extension of the Term of the Notes.* If the Issuer is unable to pay the outstanding aggregate principal amount of the Notes on the Maturity Date, the term of the Notes shall be extended to the Extended Maturity Date and the Issuer shall redeem all (and not only some) of the Notes on the Extended Maturity Date at the Final Redemption Amount together with accrued interest, if any, to, but excluding, the Extended Maturity Date.

In this case, the Issuer will without undue delay, but in any case not later than **[5 (five)]****[● (●)]** Business Days prior to the Maturity Date, inform the Holders that an extension of the term of the Notes has occurred by publishing a notice (the "**Non-payment Notice**") which will specify the Extended Maturity Date, provided that

any failure to provide such Non-payment Notice shall not affect the effectiveness of, or otherwise invalidate the extension of the term of the Notes or give Holders any rights as a result of such failure.

Neither the failure to pay the outstanding aggregate principal amount of the Notes on the Maturity Date nor the extension of the term of the Notes shall constitute an event of default for any purpose or give any Holder any right to accelerate the Notes or to receive any payment other than as expressly set out in these Terms and Conditions. The Non-payment Notice shall be irrevocable and shall be given in accordance with § 10.]

[From the entry into force of the Austrian Covered Bond Act (Pfandbriefgesetz – PfandBG) Federal Law Gazette I No. 199/2021 on 8 July 2022 the following applies:

(1a) *Conditions for a maturity extension.*

The maturity of the Notes may be postponed once by up to 12 months to the Extended Maturity Date upon the occurrence of the Objective Trigger Event (as defined below).

The "**Objective Trigger Event**" shall have occurred if the maturity extension is triggered in the Issuer's insolvency by the special administrator (§ 86 of the Austrian Insolvency Code), provided that the special administrator is convinced at the time of the maturity extension that the liabilities under the Notes can be serviced in full on the Extended Maturity Date. The maturity extension is not at the Issuer's discretion. In the event of a maturity extension, the Issuer will redeem the Notes in whole and not in part on the Extended Maturity Date at the Final Redemption Amount together with any interest accrued to (but excluding) the Extended Maturity Date. The occurrence of the Objective Trigger Event and any resulting adjustments of the Interest Period relating thereto shall be notified to the Holders without undue delay in accordance with § 10.

Neither the failure to pay the outstanding aggregate principal amount of the Notes on the Maturity Date nor the maturity extension shall constitute an event of default of the Issuer for any purpose or give any Holder any right to accelerate the Notes or to receive any payment other than as expressly set out in these Terms and Conditions.

In the event of the insolvency or resolution of the Issuer, payment obligations of the Issuer under the Notes shall not be subject to automatic acceleration and prepayment (bankruptcy remoteness). In each case, the Holders shall have a priority claim in relation to the principal amount and any accrued and future interest from the cover assets and in addition in case of insolvency, to the extent that the aforementioned priority claim cannot be satisfied in full, an insolvency claim against the Issuer.

As competent authority, the Austrian Financial Market Authority (FMA) supervises the issuance of covered bonds and compliance with the provisions of the PfandBG, taking into account the national economic interest in a functioning capital market.

In case of insolvency proceedings, the bankruptcy court shall without undue delay appoint a special administrator to administer priority claims in relation to the principal amount and any accrued and future interest from the cover assets (special estate) (§ 86 of the Austrian Insolvency Code). The special administrator shall satisfy due claims of the Holders from the special estate and shall take the necessary administrative measures for this purpose with effect for the special estate, for example by collecting due mortgage claims, selling individual cover assets or by bridge financing.]

(1b) *Interest.* The Notes shall bear interest on their outstanding aggregate principal amount from the Maturity Date (inclusive) to the Extended Maturity Date (exclusive). Interest on the Notes shall be payable on each Interest Payment Date. **[From the entry into force of the Austrian Covered Bond Act (Pfandbriefgesetz – PfandBG) Federal Law Gazette I No. 199/2021 on 8 July 2022 the following applies:** The Holders shall not be entitled to any further interest payments as from the Extended Maturity Date.]

(1c) *Rate of Interest.* The rate of interest (the "**Rate of Interest**") for each Interest Period shall be the offered quotation (expressed as a percentage rate *per annum*) for deposits in the Specified Currency for that Interest Period which appears on the Screen Page as of 11:00 a.m. (Brussels time) on the Interest Determination Date (as defined below) (**[insert number]**-month EURIBOR) [, multiplied by **[insert factor]**] **[plus]** **[minus]** the Margin (as defined below)], all as determined by the Calculation Agent. The Rate of Interest is in any case higher or equal to Zero.

"**Interest Determination Date**" means the **[first]** **[second]** **[TARGET]** **[insert relevant financial centre(s)]** Business Day prior to the **[commencement]** **[end]** of the relevant Interest Period. "**[TARGET]** **[insert relevant financial center(s)]** Business Day" means a day (other than a Saturday or Sunday) on which **[all relevant parts of the Trans-European Automated Real-time Gross Settlement Express Transfer System 2 ("TARGET")**

are open] [commercial banks are open for business (including dealings in foreign exchange and foreign currency) in [insert relevant financial centre(s)]] [to effect payments].

["Margin" means [●] per cent. *per annum*.]

"Screen Page" means Reuters screen page [EURIBOR01] [insert screen page] or any successor page.

If the Screen Page is not available or if no such quotation appears as at such time, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for deposits in the Specified Currency for the relevant Interest Period to leading banks in the interbank market of the Euro Zone at approximately 11.00 a.m. (Brussels time) on the Interest Determination Date. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be determined on the basis of the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such offered quotations [, multiplied by [insert factor]] [[plus] [minus] the Margin], all as determined by the Calculation Agent.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be determined on the basis of the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such rates were offered, as at 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for the relevant Interest Period by leading banks in the interbank market of the Euro Zone [, multiplied by [insert factor]] [[plus] [minus] the Margin] or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for the relevant Interest Period, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for the relevant Interest Period, at which, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Calculation Agent and the Issuer suitable for such purpose) inform(s) the Calculation Agent it is or they are quoting to leading banks in the interbank market of the Euro Zone (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) [, multiplied by [insert factor]] [[plus] [minus] the Margin]. If the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined on the basis of the offered quotation or the arithmetic mean of the offered quotations on the Screen Page, as described above, on the last day preceding the Interest Determination Date on which such quotations were offered [, multiplied by [insert factor]] [[plus] [minus] the Margin (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period)].

"Reference Banks" means those offices of four such banks whose offered rates were used to determine such quotation when such quotation last appeared on the Screen Page.

"Euro-Zone" means the region comprised of those member states of the European Union that have adopted, or will have adopted from time to time, the single currency in accordance with the Treaty establishing the European Community (signed in Rome on 25 March 1957), as amended by the Treaty on European Union (signed in Maastricht on 7 February 1992), the Amsterdam Treaty of 2 October 1997 and the Treaty of Lisbon of 13 December 2007, as further amended from time to time.

In the event of the Issuer determining the occurrence of a Benchmark Event (as defined below), (i) the Issuer shall use reasonable endeavours to appoint an Independent Advisor (as defined below) to determine in the Independent Advisor's reasonable discretion (acting in good faith and a commercially reasonable manner (the "Substitution Objective")) a Substitute Offered Quotation which shall replace the original offered quotation affected by the Benchmark Event; or (ii) if no Independent Advisor is or can be timely appointed by the Issuer or if an Independent Advisor is appointed by the Issuer, but fails to determine a Substitute Offered Quotation, then [the] [Issuer] [●] (in consideration of the Substitution Objective) may determine which (if any) rate has replaced the original offered quotation affected by the Benchmark Event. Any Substitute Offered Quotation shall apply from (and including) the Interest Determination Date determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion, which shall be no earlier than the Interest Determination Date falling on or immediately following the date of the Benchmark Event, with first effect for the Interest Period for which the Rate of Interest is determined on such Interest Determination Date, and notified in writing to the Calculation Agent. The "Substitute Offered Quotation" shall be a rate (expressed as a percentage rate *per annum*) which corresponds to an alternative offered quotation (the "Alternative Offered

Quotation") provided by a third party and meeting any applicable legal requirements for being used for determining the payment obligations under the Notes determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion, as modified by applying the adjustments (e.g. in the form of premiums or discounts), if any, that may be determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion.

Notwithstanding the generality of the foregoing, the Issuer may in particular, but without limitation implement an Official Substitution Concept, an Industry Solution or a Generally Accepted Market Practise.

If the Independent Advisor or [the] [Issuer] [●] (as the case may be) determines a Substitute Offered Quotation, it shall also be entitled to make, in its due discretion, any such procedural determinations relating to the determination of the current Substitute Offered Quotation (e.g. the determination day, the relevant time, the relevant screen page for obtaining the Alternative Offered Quotation and the fallback provisions in the event that the relevant screen page is not available) and to make such adjustments to the definition of "Business Day" in § 4 and the business day convention provisions in paragraph ([1e]) below which in accordance with the Generally Accepted Market Practise are necessary or expedient to make the substitution of the offered quotation by the Substitute Offered Quotation operative.

A "**Benchmark Event**" occurs if

(a) a public statement or publication of information by or on behalf of the regulatory supervisor of the offered quotation administrator is made, stating that said administrator has ceased or will cease to provide the offered quotation permanently or indefinitely, unless there is a successor administrator that will continue to provide the offered quotation; or

(b) a public statement or publication of information by or on behalf of the offered quotation administrator is made, stating that said administrator has ceased or will cease to provide the offered quotation permanently or indefinitely, unless there is a successor administrator that will continue to provide the offered quotation; or

(c) public statement by the regulatory supervisor of the offered quotation administrator is made that, in its view, the offered quotation is no longer, or will no longer be, representative of the underlying market it purports to measure and no action to remediate such a situation is taken or expected to be taken as required by the supervisor of the offered quotation administrator; or

(d) it has become, for any reason, unlawful under any law or regulation applicable to any Paying Agent, the Calculation Agent, the Issuer or any other party to use the offered quotation; or

(e) the offered quotation is permanently no longer published without a previous official announcement by the competent authority or the administrator; or

(f) a material change is made to the offered quotation methodology.

"Official Substitution Concept" means any binding or non-binding statement by any central bank, supervisory authority or supervisory or expert body of the financial sector established under public law or composed of publically appointed members pursuant to which a certain reference rate, subject to certain adjustments (if any), should or could be used to replace the offered quotation or pursuant to which a certain procedure should or could be used in order to determine payment obligations which would otherwise be determined by reference to the offered quotation.

"Industry Solution" means any statement by the International Swaps and Derivatives Association (ISDA), the International Capital Markets Association (ICMA), the Association for Financial Markets in Europe (AFME), the Securities Industry and Financial Markets Association (SIFMA), the SIFMA Asset Management Group (SIFMA AMG), the Loan Markets Association (LMA), the Deutsche Derivate Verband (DDV), the Zertifikate Forum Austria or any other private association of the financial industry pursuant to which a certain reference rate, subject to certain adjustments (if any), should or could be used to replace the offered quotation or pursuant to which a certain procedure should or could be used in order to determine payment obligations which would otherwise be determined by reference to the offered quotation.

"Generally Accepted Market Practise" means the use of a certain reference rate, subject to certain adjustments (if any), as substitute rate for the offered quotation or of provisions, contractual or otherwise, providing for a certain procedure to determine payment obligations which would otherwise have been determined by reference to the offered quotation in a material number of bond issues following the occurrence of a Benchmark Event, or any other generally accepted market practise (taking into account the operational

requirements of the Calculation Agent) to replace the offered quotation as reference rate for the determination of payment obligations.

For the purposes of this subparagraph "**Independent Advisor**" means an independent financial institution of international repute or other independent financial advisor in the Euro zone experienced in the international capital markets, in each case appointed by the Issuer at its own expense.

The Independent Advisor or [the] [Issuer] [●] (as the case may be) is entitled, but not obliged, to determine, in its due discretion, a Substitute Offered Quotation pursuant to the provisions of this subparagraph several times in relation to the same Benchmark Event, provided that each later determination is better suitable than the earlier one to realise the Substitution Objective. The provisions of this subparagraph shall also apply mutatis mutandis in the event of a Benchmark Event occurring in relation to any Alternative Offered Quotation previously determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be).

If the Independent Advisor or [the] [Issuer] [●] (as the case may be) has determined a Substitute Offered Quotation following the occurrence of a Benchmark Event, it will cause the occurrence of the Benchmark Event, the Substitute Offered Quotation determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) and any further determinations of the Independent Advisor or [the] [Issuer] [●] (as the case may be) pursuant to this subparagraph associated therewith to be notified to the Calculation Agent in text format (*Textform*, e.g. e-mail or fax) and to the Holders in accordance with § 10 as soon as possible, but in no event later than the fourth Business Day following the determination of the Substitute Offered Quotation and, if required by the rules of the Vienna Stock Exchange on which the Notes are from time to time listed, to the Vienna Stock Exchange as soon as possible, but in no event later than the first day of the Interest Period to which the Substitute Offered Quotation applies for the first time.

"**Screen Page**" means Reuters screen page [EURIBOR01] *insert screen page* or any successor page.

If the Screen Page is not available or if no such quotation appears as at such time, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for deposits in the Specified Currency for the relevant Interest Period to leading banks in the interbank market of the Euro Zone at approximately 11.00 a.m. (Brussels time) on the Interest Determination Date. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be determined on the basis of the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such offered quotations [, multiplied by *insert factor*] [[plus] [minus] the Margin], all as determined by the Calculation Agent.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be determined on the basis of the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such rates were offered, as at 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for the relevant Interest Period by leading banks in the interbank market of the Euro Zone [, multiplied by *insert factor*] [[plus] [minus] the Margin] or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for the relevant Interest Period, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for the relevant Interest Period, at which, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Calculation Agent and the Issuer suitable for such purpose) inform(s) the Calculation Agent it is or they are quoting to leading banks in the interbank market of the Euro Zone (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) [, multiplied by *insert factor*] [[plus] [minus] the Margin]. If the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined on the basis of the offered quotation or the arithmetic mean of the offered quotations on the Screen Page, as described above, on the last day preceding the Interest Determination Date on which such quotations were offered [, multiplied by *insert factor*] [[plus] [minus] the Margin (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period)].

"**Reference Banks**" means those offices of four such banks whose offered rates were used to determine such quotation when such quotation last appeared on the Screen Page.

"**Euro-Zone**" means the region comprised of those member states of the European Union that have adopted, or will have adopted from time to time, the single currency in accordance with the Treaty establishing the European Community (signed in Rome on 25 March 1957), as amended by the Treaty on European Union (signed in Maastricht on 7 February 1992), the Amsterdam Treaty of 2 October 1997 and the Treaty of Lisbon of 13 December 2007, as further amended from time to time.

In the event of the Issuer determining the occurrence of a Benchmark Event (as defined below), (i) the Issuer shall use reasonable endeavours to appoint an Independent Advisor (as defined below) to determine in the Independent Advisor's reasonable discretion (acting in good faith and a commercially reasonable manner (the

"**Substitution Objective**") a Substitute Offered Quotation which shall replace the original offered quotation affected by the Benchmark Event; or (ii) if no Independent Advisor is or can be timely appointed by the Issuer or if an Independent Advisor is appointed by the Issuer, but fails to determine a Substitute Offered Quotation, then [the] [Issuer] [●] (in consideration of the Substitute Objective) may determine which (if any) rate has replaced the original offered quotation affected by the Benchmark Event. Any Substitute Offered Quotation shall apply from (and including) the Interest Determination Date determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion, which shall be no earlier than the Interest Determination Date falling on or immediately following the date of the Benchmark Event, with first effect for the Interest Period for which the Rate of Interest is determined on such Interest Determination Date, and notified in writing to the Calculation Agent. The "**Substitute Offered Quotation**" shall be a rate (expressed as a percentage rate *per annum*) which corresponds to an alternative offered quotation (the "**Alternative Offered Quotation**") provided by a third party and meeting any applicable legal requirements for being used for determining the payment obligations under the Notes determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion, as modified by applying the adjustments (e.g. in the form of premiums or discounts), if any, that may be determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion.

Notwithstanding the generality of the foregoing, the Issuer may in particular, but without limitation implement an Official Substitution Concept, an Industry Solution or a Generally Accepted Market Practise.

If the Independent Advisor or [the] [Issuer] [●] (as the case may be) determines a Substitute Offered Quotation, it shall also be entitled to make, in its due discretion, any such procedural determinations relating to the determination of the current Substitute Offered Quotation (e.g. the determination day, the relevant time, the relevant screen page for obtaining the Alternative Offered Quotation and the fallback provisions in the event that the relevant screen page is not available) and to make such adjustments to the definition of "Business Day" in § 4 and the business day convention provisions in § 4 which in accordance with the Generally Accepted Market Practise are necessary or expedient to make the substitution of the offered quotation by the Substitute Offered Quotation operative.

A "**Benchmark Event**" occurs if

(a) a public statement or publication of information by or on behalf of the regulatory supervisor of the offered quotation administrator is made, stating that said administrator has ceased or will cease to provide the offered quotation permanently or indefinitely, unless there is a successor administrator that will continue to provide the offered quotation; or

(b) a public statement or publication of information by or on behalf of the offered quotation administrator is made, stating that said administrator has ceased or will cease to provide the offered quotation permanently or indefinitely, unless there is a successor administrator that will continue to provide the offered quotation; or

(c) public statement by the regulatory supervisor of the offered quotation administrator is made that, in its view, the offered quotation is no longer, or will no longer be, representative of the underlying market it purports to measure and no action to remediate such a situation is taken or expected to be taken as required by the supervisor of the offered quotation administrator; or

(d) it has become, for any reason, unlawful under any law or regulation applicable to any Paying Agent, the Calculation Agent, the Issuer or any other party to use the offered quotation; or

(e) the offered quotation is permanently no longer published without a previous official announcement by the competent authority or the administrator; or

(f) a material change is made to the offered quotation methodology.

"**Official Substitution Concept**" means any binding or non-binding statement by any central bank, supervisory authority or supervisory or expert body of the financial sector established under public law or composed of publically appointed members pursuant to which a certain reference rate, subject to certain adjustments (if any), should or could be used to replace the offered quotation or pursuant to which a certain procedure should or could be used in order to determine payment obligations which would otherwise be determined by reference to the offered quotation.

"**Industry Solution**" means any statement by the International Swaps and Derivatives Association (ISDA), the International Capital Markets Association (ICMA), the Association for Financial Markets in Europe (AFME), the Securities Industry and Financial Markets Association (SIFMA), the SIFMA Asset Management Group (SIFMA AMG), the Loan Markets Association (LMA), the Deutsche Derivate Verband (DDV), the Zertifikate Forum

Austria or any other private association of the financial industry pursuant to which a certain reference rate, subject to certain adjustments (if any), should or could be used to replace the offered quotation or pursuant to which a certain procedure should or could be used in order to determine payment obligations which would otherwise be determined by reference to the offered quotation.

"Generally Accepted Market Practise" means the use of a certain reference rate, subject to certain adjustments (if any), as substitute rate for the offered quotation or of provisions, contractual or otherwise, providing for a certain procedure to determine payment obligations which would otherwise have been determined by reference to the offered quotation in a material number of bond issues following the occurrence of a Benchmark Event, or any other generally accepted market practise (taking into account the operational requirements of the Calculation Agent) to replace the offered quotation as reference rate for the determination of payment obligations.

For the purposes of this subparagraph **"Independent Advisor"** means an independent financial institution of international repute or other independent financial advisor in the Euro zone experienced in the international capital markets, in each case appointed by the Issuer at its own expense.

The Independent Advisor or [the] [Issuer] [●] (as the case may be) is entitled, but not obliged, to determine, in its due discretion, a Substitute Offered Quotation pursuant to the provisions of this subparagraph several times in relation to the same Benchmark Event, provided that each later determination is better suitable than the earlier one to realise the Substitution Objective. The provisions of this subparagraph shall also apply mutatis mutandis in the event of a Benchmark Event occurring in relation to any Alternative Offered Quotation previously determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be).

If the Independent Advisor or [the] [Issuer] [●] (as the case may be) has determined a Substitute Offered Quotation following the occurrence of a Benchmark Event, it will cause the occurrence of the Benchmark Event, the Substitute Offered Quotation determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) and any further determinations of the Independent Advisor or [the] [Issuer] [●] (as the case may be) pursuant to this subparagraph associated therewith to be notified to the Calculation Agent in text format (*Textform*, e.g. e-mail or fax) and to the Holders in accordance with § 10 as soon as possible, but in no event later than the fourth Business Day following the determination of the Substitute Offered Quotation and, if required by the rules of the Vienna Stock Exchange on which the Notes are from time to time listed, to the Vienna Stock Exchange as soon as possible, but in no event later than the first day of the Interest Period to which the Substitute Offered Quotation applies for the first time.

If the Issuer is unable to appoint an Independent Advisor or the Independent Advisor appointed by it or the Issuer fails to determine a Substitute Offered Quotation or an Alternative Offered Quotation (as the case may be) in accordance with this § 3 (2) or a Substitute Offered Quotation or an Alternative Offered Quotation (as the case may be) has been determined but is not yet applicable in accordance with the provisions set out above prior to the relevant Interest Determination Date, the original offered quotation applicable to the relevant Interest Determination Date and the corresponding Interest Period shall be the original offered quotation in respect of the last preceding Interest Period (the **"Ultimative Fall-back"**).

If the Ultimative Fall-back applies as described above and provided that the conditions laid down in § 5([6]) are met the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time up and until (but excluding) the respective immediately subsequent Interest Determination Date on giving not less than 15 days' prior notice of redemption, in accordance with § 10 to the Holders (which notice shall be irrevocable), at their Early Redemption Amount (as defined in § 5 ([7])), together with interest accrued to (but excluding) the date fixed for redemption.

Interest Payment Dates are subject to adjustment in accordance with the provisions set out in § 4 (4).

[(6)] Amount of Interest. The Calculation Agent will, on or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest and calculate the amount of interest (the "**Interest Amount**") payable on the Notes for the relevant Interest Period. The Interest Amount shall be calculated by applying the relevant (where applicable, commercially rounded to 5 decimal places) Rate of Interest and the Day Count Fraction (as defined below) to the principal amount of the Notes, whereas the resultant figure is rounded upwards or downwards to the smallest sub-unit of the Specified Currency, with 0.5 or more of such sub-units being rounded upwards.

The Holder shall not be entitled to demand further interests or other payments due to this adjustment.

(5) *References to Principal and Interest.* Reference in these Terms and Conditions to principal in respect of the Notes shall be deemed to include, as applicable: the Final Redemption Amount, the Early Redemption Amount **[if the Issuer has the option to early redeem the Notes for other than taxation and/or regulatory reasons, the following applies:**, the Call Redemption Amount] **[if the Holder has the option to early redeem the Notes, the following applies:**, the Put Redemption Amount] and any premium and any other amounts which may be payable under or in respect of the Notes. [(6)] Conditions for Early Redemption and Repurchase. In such event, the Issuer shall, to the extent permitted by law, pay such additional amounts of principal and interest (the "**Additional Amounts**") as shall be necessary in order that the net amounts of principal and interest received by the Holder (or a third party on behalf of the Holder), after such deduction or withholding, shall equal the respective amounts of principal and interest which would otherwise have been receivable in the absence of such deduction or withholding; except that no such Additional Amounts shall be payable on account of Taxes which

- (g) are deducted or withheld after payment by the Issuer during the transfer to the Holder; or
- (h) would not have been deducted or withheld if the Holder had duly submitted a claim for the respective payment of principal or interest within 30 days after the due date; or

(3) *Enforcement.* Any Holder of Notes may in any proceedings against the Issuer, or to which such Holder and the Issuer are parties, protect and enforce in his own name his rights arising under such Notes on the basis of (i) a statement issued by the Custodian with whom such Holder maintains a securities account in respect of the Notes (a) stating the full name and address of the Holder, (b) specifying the aggregate principal amount of Notes credited to such securities account on the date of such statement and (c) if applicable, confirming that the Custodian has given written notice to the Clearing System containing the information pursuant to (a) and (b) and (ii) if the Global Note is not held in own custody, a copy of the Global Note certified as being a true copy on behalf of the Clearing System or a depositary of the Clearing System, without the need for production in such proceedings of the actual records or the global note representing the Notes. For purposes of the foregoing, "**Custodian**" means any bank or other financial institution of recognised standing authorised to engage in securities custody business with which the Holder maintains a securities account in respect of the Notes and, if applicable, includes the Clearing System. [In the case of floating rate Notes, the following applies:

(1) *Interest.* The Notes shall bear interest on their aggregate principal amount from (and including) **[insert the interest commencement date]** (the "**Interest Commencement Date**") to (but excluding) the first Interest Payment Date and thereafter from (and including) each Interest Payment Date to (but excluding) the next following Interest Payment Date (at the latest until the Maturity Date (exclusive) (as defined in § 5 (1)). If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be determined on the basis of the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such offered quotations [, multiplied by **[insert factor]** **[[plus] [minus]** the Margin], all as determined by the Calculation Agent.

If on any Interest Determination Date only one or none of the Reference Banks provides the Calculation Agent with such offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be determined on the basis of the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such rates were offered, as at 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for the relevant Interest Period by leading banks in the interbank market of the Euro Zone [, multiplied by **[insert factor]** **[[plus] [minus]** the Margin] or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for the relevant Interest Period, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for the relevant Interest Period, at which, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Calculation Agent and the Issuer suitable for such purpose) inform(s) the Calculation Agent it is or they are quoting to leading banks in the interbank market of the Euro Zone (or, as the case may be, the quotations of such bank or banks to the Calculation Agent) [, multiplied by **[insert factor]** **[[plus] [minus]** the Margin]. If the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined on the basis of the offered quotation or the arithmetic mean of the offered quotations on the Screen Page, as described above, on the last day preceding the Interest Determination Date on which such quotations were offered [, multiplied by **[insert factor]** **[[plus] [minus]** the Margin (though substituting, where a different Margin is to be applied to the relevant Interest Period from that

In the event of the Issuer determining the occurrence of a Benchmark Event (as defined below), (i) the Issuer shall use reasonable endeavours to appoint an Independent Advisor (as defined below) to determine in the Independent Advisor's reasonable discretion (acting in good faith and a commercially reasonable manner (the "**Substitution Objective**")) a Substitute Offered Quotation which shall replace the original offered quotation affected by the Benchmark Event; or (ii) if no Independent Advisor is or can be timely appointed by the Issuer or if an Independent Advisor is appointed by the Issuer, but fails to determine a Substitute Offered Quotation, then [the] [Issuer] [●] (in consideration of the Substitution Objective) may determine which (if any) rate has replaced the original offered quotation affected by the Benchmark Event. Any Substitute Offered Quotation shall apply from (and including) the Interest Determination Date determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion, which shall be no earlier than the Interest Determination Date falling on or immediately following the date of the Benchmark Event, with first effect for the Interest Period for which the Rate of Interest is determined on such Interest Determination Date, and notified in writing to the Calculation Agent. The "**Substitute Offered Quotation**" shall be a rate (expressed as a percentage rate *per annum*) which corresponds to an alternative offered quotation (the "**Alternative Offered Quotation**") provided by a third party and meeting any applicable legal requirements for being used for determining the payment obligations under the Notes determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion, as modified by applying the adjustments (e.g. in the form of premiums or discounts), if any, that may be determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) in its due discretion.

Notwithstanding the generality of the foregoing, the Issuer may in particular, but without limitation implement an Official Substitution Concept, an Industry Solution or a Generally Accepted Market Practise.

If the Independent Advisor or [the] [Issuer] [●] (as the case may be) determines a Substitute Offered Quotation, it shall also be entitled to make, in its due discretion, any such procedural determinations relating to the determination of the current Substitute Offered Quotation (e.g. the determination day, the relevant time, the relevant screen page for obtaining the Alternative Offered Quotation and the fallback provisions in the event that the relevant screen page is not available) and to make such adjustments to the definition of "Business Day" in § 4 and the business day convention provisions in § 4 which in accordance with the Generally Accepted Market Practise are necessary or expedient to make the substitution of the offered quotation by the Substitute Offered Quotation operative.

A "**Benchmark Event**" occurs if

(a) a public statement or publication of information by or on behalf of the regulatory supervisor of the offered quotation administrator is made, stating that said administrator has ceased or will cease to provide the offered quotation permanently or indefinitely, unless there is a successor administrator that will continue to provide the offered quotation; or

(b) a public statement or publication of information by or on behalf of the offered quotation administrator is made, stating that said administrator has ceased or will cease to provide the offered quotation permanently or indefinitely, unless there is a successor administrator that will continue to provide the offered quotation; or

(c) public statement by the regulatory supervisor of the offered quotation administrator is made that, in its view, the offered quotation is no longer, or will no longer be, representative of the underlying market it purports to measure and no action to remediate such a situation is taken or expected to be taken as required by the supervisor of the offered quotation administrator; or

(d) it has become, for any reason, unlawful under any law or regulation applicable to any Paying Agent, the Calculation Agent, the Issuer or any other party to use the offered quotation; or

(e) the offered quotation is permanently no longer published without a previous official announcement by the competent authority or the administrator; or

(f) a material change is made to the offered quotation methodology.

"Official Substitution Concept" means any binding or non-binding statement by any central bank, supervisory authority or supervisory or expert body of the financial sector established under public law or composed of publically appointed members pursuant to which a certain reference rate, subject to certain adjustments (if any), should or could be used to replace the offered quotation or pursuant to which a certain procedure should or could be used in order to determine payment obligations which would otherwise be determined by reference to the offered quotation.

"Industry Solution" means any statement by the International Swaps and Derivatives Association (ISDA), the International Capital Markets Association (ICMA), the Association for Financial Markets in Europe (AFME), the Securities Industry and Financial Markets Association (SIFMA), the SIFMA Asset Management Group (SIFMA AMG), the Loan Markets Association (LMA), the Deutsche Derivate Verband (DDV), the Zertifikate Forum Austria or any other private association of the financial industry pursuant to which a certain reference rate, subject to certain adjustments (if any), should or could be used to replace the offered quotation or pursuant to which a certain procedure should or could be used in order to determine payment obligations which would otherwise be determined by reference to the offered quotation.

"Generally Accepted Market Practise" means the use of a certain reference rate, subject to certain adjustments (if any), as substitute rate for the offered quotation or of provisions, contractual or otherwise, providing for a certain procedure to determine payment obligations which would otherwise have been determined by reference to the offered quotation in a material number of bond issues following the occurrence of a Benchmark Event, or any other generally accepted market practise (taking into account the operational requirements of the Calculation Agent) to replace the offered quotation as reference rate for the determination of payment obligations.

For the purposes of this subparagraph **"Independent Advisor"** means an independent financial institution of international repute or other independent financial advisor in the Euro zone experienced in the international capital markets, in each case appointed by the Issuer at its own expense.

The Independent Advisor or [the] [Issuer] [●] (as the case may be) is entitled, but not obliged, to determine, in its due discretion, a Substitute Offered Quotation pursuant to the provisions of this subparagraph several times in relation to the same Benchmark Event, provided that each later determination is better suitable than the earlier one to realise the Substitution Objective. The provisions of this subparagraph shall also apply mutatis mutandis in the event of a Benchmark Event occurring in relation to any Alternative Offered Quotation previously determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be).

If the Independent Advisor or [the] [Issuer] [●] (as the case may be) has determined a Substitute Offered Quotation following the occurrence of a Benchmark Event, it will cause the occurrence of the Benchmark Event, the Substitute Offered Quotation determined by the Independent Advisor or [the] [Issuer] [●] (as the case may be) and any further determinations of the Independent Advisor or [the] [Issuer] [●] (as the case may be) pursuant to this subparagraph associated therewith to be notified to the Calculation Agent in text format (*Textform*, e.g. e-mail or fax) and to the Holders in accordance with § 10 as soon as possible, but in no event later than the fourth Business Day following the determination of the Substitute Offered Quotation and, if required by the rules of the Vienna Stock Exchange on which the Notes are from time to time listed, to the Vienna Stock Exchange as soon as possible, but in no event later than the first day of the Interest Period to which the Substitute Offered Quotation applies for the first time.

If the Issuer is unable to appoint an Independent Advisor or the Independent Advisor appointed by it or the Issuer fails to determine a Substitute Offered Quotation or an Alternative Offered Quotation (as the case may be) in accordance with this § 3 (2) or a Substitute Offered Quotation or an Alternative Offered Quotation (as the case may be) has been determined but is not yet applicable in accordance with the provisions set out above prior to the relevant Interest Determination Date, the original offered quotation applicable to the relevant Interest Determination Date and the corresponding Interest Period shall be the original offered quotation in respect of the last preceding Interest Period (the **"Ultimative Fall-back"**).

If the Ultimative Fall-back applies as described above and provided that the conditions laid down in § 5([6]) are met the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time up and until (but excluding) the respective immediately subsequent Interest Determination Date on giving not less than 15 days' prior notice of redemption, in accordance with § 10 to the Holders (which notice shall be irrevocable), at

their Early Redemption Amount (as defined in § 5 ([7])), together with interest accrued to (but excluding) the date fixed for redemption.

Interest Payment Dates are subject to adjustment in accordance with the provisions set out in § 4 (4).

([6]) *Amount of Interest.* The Calculation Agent will, on or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest and calculate the amount of interest (the "Interest Amount") payable on the Notes for the relevant Interest Period. The Interest Amount shall be calculated by applying the relevant (where applicable, commercially rounded to 5 decimal places) Rate of Interest and the Day Count Fraction (as defined below) to the principal amount of the Notes, whereas the resultant figure is rounded upwards or downwards to the smallest sub-unit of the Specified Currency, with 0.5 or more of such sub-units being rounded upwards.

([7]) *Notification of Rate of Interest and Interest Period.* The Calculation Agent will cause the Rate of Interest and the relevant Interest Period to be notified to the Issuer and to the Holders in accordance with § 10 and, if required by the rules of the Vienna Stock Exchange on which the Notes are from time to time listed, to the Vienna Stock Exchange, as soon as possible after their determination. The Interest Period so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to the Vienna Stock Exchange on which the Notes are then listed and to the Holders in accordance with § 10.

Further claims by the Holders remain unaffected.

([5]) *Day Count Fraction.* "Day Count Fraction" means, in respect of the calculation of an amount of interest on any Note for any period of time (the "Calculation Period"):

[In the case Actual/Actual (ICMA) the following applies: (i) if the Calculation Period is equal to or shorter than the Interest Period during which it falls, the actual number of days in the Calculation Period divided by the

product of (A) the actual number of days in the respective Interest Period and (B) the number of Interest Periods in one year;

[(5)] Early Redemption for Regulatory Reasons. The Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time on giving not more than 60 days' nor less than 30 days' prior notice of redemption, in accordance with § 10 to the Holders (which notice shall be irrevocable), at their Early Redemption Amount (as defined in § 5 **[(7)]**), together with interest accrued to (but excluding) the date fixed for redemption, if there is a change in the regulatory classification of the Notes that would be likely to result in their exclusion in full or in part from liabilities eligible for the minimum requirement for own funds and eligible liabilities (MREL) pursuant to the BaSAG on an unlimited and uncapped basis, and provided that the conditions laid down in § 5 **[(6)]** are met.

[(6)] Conditions for Early Redemption and Repurchase. Any early redemption pursuant to this § 5 and any repurchase pursuant to § 9 (2) are subject to the Issuer having obtained the prior permission of the Resolution Authority for the early redemption and the repurchase, in accordance with Articles 77 and 78a CRR, if and to the extent such prior permission is required at this time.

Notwithstanding the above conditions, if, at the time of any early redemption or repurchase, the prevailing supervisory regulations applicable to the Issuer permit the early redemption or repurchase only after compliance with one or more alternative or additional pre-conditions to those set out above, the Issuer shall comply with such other and/or, as appropriate, additional pre-conditions, if any.

For the avoidance of doubt, any refusal of the Resolution Authority to grant the permission shall not constitute a default for any purpose.

[(7)] Early Redemption Amount. For the purposes of these Terms and Conditions, the Early Redemption Amount of a Note shall be **[its Final Redemption Amount] [the amount determined by the Issuer as reasonable market price by using equitable discretion] [insert other early redemption amount]**.
